BEAR SAFETY

THE BLACK BEAR IS THE ONLY BEAR SPECIES IN NEW HAMPSHIRE. BLACK BEARS ARE GENERALLY SHY AND USUALLY AVOID HUMANS. IN THE WOODS, BLACK BEARS USUALLY RETREAT BEFORE PEOPLE ARE AWARE OF THEM. NORMAL TRAIL NOISE SHOULD ALERT BEARS TO YOUR PRESENCE AS WELL AS YOUR SCENT. HOWEVER, THEY ARE OPPORTUNISTIC AND WILL SEEK OUT HUMAN-RELATED FOODS, PARTICULARLY WHEN NATURAL FOODS ARE LIMITED.

IF YOU ENCOUNTER A BEAR

In Your Backyard:

- From a comfortable distance, make loud noises by shouting, banging pots and pans, or using an air horn to deter the bear from the area.
- When the bear leaves, remove potential attractants such as garbage, bird seed, or pet food.
- Ask neighbors to remove attractants.

At a Close Distance or in a Confined Area:

- Begin repeating "hey bear" in a calm voice, maintain eye contact, and slowly back away. Do not run or climb trees.
- Give the bear a clear escape route (do not corner it).

BLACK BEARS AWAKE FROM HIBERNATION AROUND MID MARCH. IN OUR AREA THEY CONGREGATE AT BLUE HILL MOUNTAIN AND THEY CIRCLE THE LAKE EVERY COUPLE OF WEEKS LOOKING FOR FOOD. THEY AVOID PEOPLE AND DOGS. - HUMAN SCENTS AND NOISE KEEP THEM AWAY. FOR THAT REASON WE HAVE A COUPLE OF COWBELLS IN THE BACK YARD. HOWEVER IT IS IMPERATIVE NOT TO INTISE THEM WITH THE SCENT OF FOOD.

SO PLEASE FOR YOUR SAFETY, AND OF OUR NEIGHBORS, PLEASE DO NOT LEAVE ANY FOOD, FOOD WASTE, THE GRILL, OR FOOD CONTAINERS, OR EVEN PER WASTE OUTDOORS.

PLEASE SCAN QR CODES FOR MORE INFORMATION FROM .
WILDLIFENH.GOV

Remember, conflicts with bears are a community issue. It is important to work together to remove bear attractants.
