

What's REALLY the punishment, is it  
truly the PAIN?

or the utter HUMILIATION like in  
this story told by Mistress  
Lorraine?

Once upon a time  
he was BAD  
and God did that  
make her MAD!

And she wanted to  
give him the WORST  
punishment his  
submissive ass  
EVER had,

so she dragged  
his ass into the  
room by the ear,  
and STERNLY said

**SURPRISE asshole!**  
**I invited your**  
**VANILLA ex Wife for**  
**a visit**

because I want to  
give you the WORST  
punishment there  
is

and I think that  
to you this here  
punishment will  
**DEFINITY**  
be it!

Then she sternly  
said

"Now go stand in  
front of her  
because I'm  
gonna let SUE

**"Do What SheTold Me"**

A woman with dark hair, wearing a bright yellow short-sleeved top and a grey pleated skirt, stands in a living room. She is positioned between the legs of a man whose legs are spread wide in the foreground, framing her. The background shows a staircase with wooden steps and a light-colored sofa with cushions. The lighting is warm and indoor.

I've  
**ALWAYS**  
wanted so  
fucking  
**BADLY**  
to do!

So ponder THIS  
as we listen to  
his anguished  
cries echo off  
her walls,

did ALL the pain  
from this  
punishment  
REALLY come from  
his BALLS?
