

GP REFERRALS FOR OT DRIVING ASSESSMENT

First and foremost, thank you for considering our business to cater for your patients need regarding their fitness to drive.

We are streamlining the process to make it easier for GP to refer to us.

- 1) If possible, kindly complete and forward the department of transport form = DOTm107a to driver.assessment@transport.wa.gov.au and dss@transport.wa.gov.au
SEE ATTACHED DOTm107a form

= this step would inform DOT that your client needs OT driving assessment for the stated medical condition

= this will also safeguard the GP in case the client would continue driving

- 2) Refer client to AUTONOMY health services (see attached AUTONOMY HEALTH SERVICE REFERRAL FORM)

= we need the client's details like full name, contact number, medical condition, Next of kin, and next of kin mobile number, especially if client has cognitive impairment. (NOK would remind client about the assessment and tell them not to drive until the assessment is completed).

= **If you have your own referral form, then you can use your own as long as the integral client information are included like the contact number, medical condition and GP referrers name is there. The easier it is for you to refer to us the better.**

= Kindly include a medical report or history (cut and paste version) if client is physically aggressive or has a complex diagnoses.

- 3) Expect a full OTDA report and Summary of Findings from AUTONOMY HEALTH

We are pleased to inform you that we are the only service that provides the following:

- 1) Cheapest local home service (450.00 off road and on road using an AUTOMATIC vehicle) = competitors charge 680.00
- 2) Provide a summary of findings which highlights the important information.

Kind Regards,

Romulo Romo
