

SAFELY USE A SHARPS CONTAINER

Ergonomic installation height for a wall mounted sharps container

- An ideal standing installation height for a fixed sharps container is 52–56 inches.
- At an eye level = 57 inches from the floor.
- This allows for an approximately 15 degree downward angle line of sight to visualize safely placing sharps into the sharps container's opening.
- This height will comfortably accommodate 95% of all adult female workers.

KEEP YOUR COMMUNITY SAFE

DO NOT
throw loose
sharps in trash
