

FREE WIND

It's been a long, long time...

Thinking our love is free like the wind.

Been trying to make you mine...

Thinking how it could have been.

My mind has been in dismay...

Wishing you'd feel the same as me.

Been hoping there would be a way...

Thinking how it could be.

Free wind, oh Free Wind, bring me back
to reality...

Save me from my closed mind.

Keep me from falling behind.

It's been a long, long time...

Thinking our love is free like the wind.

Been trying to make you mine...

Thinking how it could have been.

Free wind, oh Free Wind, bring me back
to reality...

Back to where I need to be.
