Everything you hear here is a Synopsis of Hunter's potential connections to Maxwell, except for what is fact:

Metabiota investors are Rosemont Seneca Technology Partners that don't exist anymore but is a part of Rosemont Capital owned by Hunter Biden and Christopher Heinz (John Kerry's Stepson).

Nathan Wolfe is involved with the Global Viral Project, formerly the global viral pr that has now become the Metabiota, funded by Rosemont Capital

Nathan has links to EcoHealth, WEF (young leader) and TerraMar

(Ghislaine Maxwell's Ocean Initiative aka money laundering program)

Integrating Contractor: Black & Veatch. Ukrainian Subcontractors

**example: USG Investment** - Total cost of laboratory: **USD\$1,728,822** (USD\$1,285,845 for Design & Construction; USD\$442,977 for lab equipment and furniture)

Ghislaine Maxwell managed money at Bear Stearns for Edgard Bronfman. Sarah and Claire - Nixvm, Claire was almost queen of libya One of Maxwells nephews worked for Clinton, one for Obama

Bronfman's originally from Moldova, heirs to the Weiser family fortune

PDF files are the different Ukrainian Labs the US govt invested in.
