

This did not go in exactly the direction I expected. I will leave you more informed, disturbed, and perhaps even with a whole new set of doubts and questions, just like a good spy novel should be. The deeper we get in the rabbit hole, the more deceptive the discoveries. Keeping in mind... the Federal Bureau of Investigation has confirmed that an estimated **460,000** children are reported missing every year in the United States, pulling back the rug and shedding light on the secrets underneath it is the necessary first step in the pursuit of accountability.

### **Jump off point, Bill Gates:**

<https://expose-news.com/2023/05/06/bill-gates-disturbing-influence/>

This dive started with a few threads, Bill and his Foundations and partnerships being caught up in some of the obvious “low hanging fruit” for conflict of interest. There is always more...

- Steve Jobs the founder of Apple pointed out in his biography, “Bill Gates’ only skill is marketing “

Marketing never qualified him as an expert in medicine or public health, \$\$\$ and mainstream media gave Bill an amplified voice to shape public opinion. Bill has \$8.3 billion to give away in 2023 and an endowment fund of more than \$70 billion <https://fortune.com/2023/01/17/is-bill-gates-too-powerful-foundation-ceo-suzman-tormenting-schoolchildren/>

When the world looks at Bill Gates today they see a Billionaire Philanthropist with his fingers stuck in everything diabolical from soup to nuts, from whacky to insane, he is financially involved in a partnership or somehow providing funding for it. Of course most recently he has been the international darling for his support and funding of Vaccines, conveniently “cooling” the story of his relationship with some very diabolical people named Epstein and Maxwell. Melinda says that relationship was the undoing of their marriage of course as well. For todays exorcise lets call them the Gates swamp number 1,2,3 etc... it's going to get twisty!

Swamp 1) Bill and Melinda Gates Foundation

Swamp 2) Microsoft

Swamp 3) W.H.O.

Swamp 4) Pharma

Epstein is the tie that binds them all but you will be introduced to a few new faces today.

### **Bill and Melinda Gates Foundation**

Although they are made to appear separate, Bills “gig’s” are the Bill and Melinda Gates Foundation, Microsoft and as the top W.H.O bootlicker and funder. They are all connected, going back a very long ways to the sinister days of Aids experimentation in Africa with Dr Fauci as per Dr Robert Willner in 1992. (clip below)

## Conflicts of interest????

- WHO's major funder, more than most nations <https://www.weforum.org/organizations/bill-melinda-gates-foundation>

The Bill Gates Foundation's financial influence has resulted in a disproportionate focus on specific diseases or the promotion of certain interventions at the expense of the lives of the public.

**Case point;** MHRA is funded by Bill and Melinda Gates Foundation as well as other sources outside government such as WHO but the majority of income comes from the pharmaceutical industry through fees, Marketing Authorization applicants have to pay fee's.

## **Sinister Associations wrapped as benevolent endeavours**

The Gates family are generational ideological supporters of Eugenics.

“Definition; Eugenics is a science that deals with the improvement (as by control of human mating) of hereditary qualities of a race or breed.<sup>2</sup> The word is derived from the Greek word eu (good or well) and the suffix -genes (born).

2013-14 showed the importance Epstein apparently held in the world of billionaire “philanthropy,” with Gates reportedly claiming that Epstein was [his “ticket”](#) to winning a Nobel Prize. A former staffer’s claim that Gates thought Epstein was his ticket to the prize added fuel to a Norwegian newspaper’s that highlighted a 2013 meeting with Gates, Epstein, and the Norwegian Nobel Committee’s chairman at the time, Thorbjørn Jagland.

## **Royalty, Epstein, Microsoft & W.H.O**

**Where are Epstein's "Red Sparrow" ([https://en.wikipedia.org/wiki/Red\\_Sparrow](https://en.wikipedia.org/wiki/Red_Sparrow)) girls today??**

Dr. Walker met Jeffrey Epstein in 1992. After she graduated from medical school in 1998, she became Epstein's science adviser for at least a year. By 1999, she had grown so close to Prince Andrew that she attended a Windsor Castle birthday celebration hosted by the Queen along with Epstein and Ghislaine Maxwell. During this period, Melanie appears on Epstein's flight logs under her birth name, Melanie Starnes. <https://www.thedailybeast.com/prince-andrew-was-given-beautiful-young-neurosurgeon-by-jeffrey-epstein-says-ex-housekeeper>

Dr Walker NOW has extensive experience in global health and development, serving previously in various roles at the Bill & Melinda Gates Foundation, World Health Organization, and the World Bank.

**Melanie Walker**

Senior Adviser to the President, World Bank

Dr. Melanie Walker is Director of the President's Delivery Unit and Senior Advisor to President Jim Yong Kim at the World Bank Group. She joined the Group from the Bill & Melinda Gates Foundation, where she served as Deputy Director for Special Initiatives, a team charged with exploring cross-disciplinary interventions and incubating new foundation programs across both health and development. She is the co-chair of the World Economic Forum's Future Council on neuro-technology and brain science.

""Sometime later, Walker moved to Seattle and began living with then Microsoft executive Steven Sinofsky, who now serves as a board partner at the venture capital firm Andreessen Horowitz. Andreessen Horowitz notably backs Carbyne911, the Israel intelligence-linked precrime start-up funded by Epstein and his close associate, former prime minister of Israel Ehud Barak, as well as another Israeli intelligence-linked tech company led by Barak, called Toka. Toka recently won contracts with the governments of Moldova, Nigeria, and Ghana through the World Bank, where Melanie Walker is currently a director and a former special adviser to its president.

Walker was hired as a senior program officer by the Bill & Melinda Gates Foundation in 2006. Given that the main feature of Walker's resume at the time was having been a

science adviser to another wealthy “philanthropist,” Jeffrey Epstein, her hire by the Gates Foundation for this critical role further underscores how Bill Gates, at the very least, not only knew who Epstein was but knew enough about his scientific interests and investments to want to hire Walker. Walker went on to become deputy director for Global Development as well as a deputy director of Special Initiatives at the foundation. According to the Rockefeller Foundation, where she is a fellow, Walker later advised Gates on issues pertaining to neurotechnology and brain science for Gates’s secretive company bgC3, which Gates originally registered as a think tank under the name Carillon Holdings. According to federal filings, bgC3’s focus areas were “scientific and technological services,” “industrial analysis and research,” and “design and development of computer hardware and software.”

During her time at the Gates Foundation, Walker introduced Boris Nikolic, Gates’s science adviser, to Epstein. Today, Melanie Walker is the cochair of the World Economic Forum’s Global Future Council on Neurotechnology and Brain Science, having previously been named a WEF Young Global Leader. She also advises the World Health Organization, which is closely linked to Bill Gates’s “philanthropy.” <https://unlimitedhangout.com/2021/05/investigative-reports/the-cover-up-continues-the-truth-about-bill-gates-microsoft-and-jeffrey-epstein/>

***Now might we consider for a moment if the Gates/Epstein/Maxwell coverup is not solely about underage girls, or human trafficking? What if it's not the dirty old sexual offenders they are protecting, or even the underage victims, what if the cover up is intelligence assets now in place after decades of intel investment***

## **Microsoft and Maxwells, siblings?**

Our Western Society basically revolves around 2 operating systems, Apple and you guessed it Microsoft. What if... it were Blackmail, security, surveillance and or espionage related to Microsoft? Google is CIA, Facebook is CIA, Apple is CCP... basically all of Silicon Valley is owned or run by one Alphabet agency or another, so who is Microsoft? Gates’ most infamous association is with the late financier and convicted sex offender Jeffrey Epstein. BUT... what if we are NOT watching ALL of the cover ups?

Last week we talked about the Maxwell family, the family spy software and Ghislaine and Jefferys "honey pot" operations to blackmail influential people. <https://rumble.com/v2mnscm-the-president-pentagon-and-pedophilia-wow.html>

Notably, Ghislaine's TerraMar Project was in many ways the successor to Isabel Maxwell's failed Blue World Alliance, which was also ostensibly focused on the world's oceans. Blue World Alliance was set up by Isabel and her now deceased husband Al Seckel, who had hosted a "scientific conference" on

Isabel Maxwell and Al Seckel at the World Economic Forum's 2011 Annual Meeting

Epstein's island. The Blue World Alliance also went under the name Globalsolver Foundation, and Xavier Malina, Christine Maxwell's son, was listed as Globalsolver's liaison to the Clinton Foundation. He was previously an intern at the Clinton Global Initiative.

Malina later worked in the Obama administration at the Office of White House Personnel. He now works for Google. It is also worth noting that during this same period, Isabel Maxwell's son, Alexander Djerassi, was chief of staff at the Bureau of Near Eastern Affairs in the Hillary Clinton-run State Department.

This man is a King without a country, he is royalty but not of a land, he is the "heir" and direct lineage of Muhammad, the King of Islam through blood lineage and one of the richest and most influential men on earth. He and Mr Gates go too far back to even start scratching the surface of here but suffice to say his resume reads a lot of coincidental African "philanthropy".

## **Where does this man fit?**

**Mr Gates, Mr Trudeau and Mr Khan through their "foundations" are partners together in a speciality of interest** and relevance to all of this. Grand Challenges Canada <https://www.bitchute.com/video/HrCLioT7Vqhb/> through some familiar names like Pierre Trudeau Foundation via CEO Morris Rosenburger, the Aga Khan and Bill Gates. What are they doing? In short, medical experimentation on children in 3rd world countries. Particularly of interest, "Saving Brains"

## Saving Brains

Saving Brains supports bold ideas to improve early brain and child development globally. The portfolio focuses on three areas of healthy development (health & nutrition, environment and protection) that, when addressed together, set up a child to reach his or her full potential.

Saving Brains is a partnership of Grand Challenges Canada, Aga Khan Foundation Canada, the Bernard van Leer Foundation, the Bill & Melinda Gates Foundation, The ELMA Foundation, Grand Challenges Ethiopia, the Maria Cecilia Souto Vidigal Foundation, the Palix Foundation, the UBS Optimus Foundation and World Vision Canada.
