

Lord Farquat's political landscape is imploding on every level, are Trudeau's problems becoming Joe's problems or vice versa?

With very little to zero fanfare or media coverage Biden's visit seemed a little too neighbourly or just too much a coincidental stop in "China" to visit with Justin. Although they attempted to meet in a way as to "try" not drawing attention to anything out of the ordinary in spite of Biden not remembering his neighbour is "Canada" not China was the highlight.. except the 2 Micheals, the 2 year long serving CCP political prisoners being special guests for Joe's visit, (apparently it was as creepy as you'd expect). [www.washingtonpost.com/world/2021/09/24/canada-two-michaels-china-huawei/](https://www.washingtonpost.com/world/2021/09/24/canada-two-michaels-china-huawei/)

There are several serious convergences here, Chinese infiltration in Canada, 2 "National Leaders" dangerously close to losing control of their positions. Over the past several weeks there has been a very tangible shift in the relationship between Farquat, his party minions, the top intel agencies and particularly the minions at the state run Mercenary S Media Newsrooms. [www.newswire.ca/news-releases/declaration-of-north-america-dna--858772176.html](https://www.newswire.ca/news-releases/declaration-of-north-america-dna--858772176.html)

Since Biden's departure... I don't think so, I believe they met ***because for the first time in more than 100 years no western leaders were even invited to the table to discuss the future of the world***, this was a visit rooted in fear, financial crisis, strategic planning, and damage control. While both leaders are being deeply exposed in very serious and deepening allegations, the war is NOT going as planned for Nato, and Korea now committed 50,000 troops to support Russia.

Now just days after Joe leaves Lord Farquat shuts down the concierge gate at Roxham Rd for the very first time since his call to the world inviting all refugees and migrants to their free future and then pulls what can only be described as a modern "Kristallnacht" by shutting down the entire parliamentary debate in frustration and passing Bill C-11 without due process. Social media platforms are already testing mechanics of complying to the new legislation.

Given almost every American named Biden's concerns with the family and their financial involvements with China coming to light, and just in case at some point no one is actually above the law in America this would naturally give him great concerns. Trudeau is experiencing those very similar concerns x100, the response in Canada is however somewhat different than in the US and the bizarre actions of Trudeau immediately following Joe's visit make it all harder to dismiss.

Bill C-11 most Canadians and all of Silicone Valley know is the UNSDA compliant ESG Social Credit law, an attempt by the Trudeau Regime in a nutshell to silence all 'politically unapproved' content on the internet in Canada. Even tech giants like Google and YouTube have called this Canadian bill as being on par with or potentially the worst ever seen, hard to Imagine. Trudeau and his real life Khalistan terrorist prop Jagmeet Singh the leader of the NDP (communist party) shut down parliament entirely in order to

pass this bill, without debate. In the interim users up in Canada have already started experiencing interruptions on Twitter, Facebook and YouTube. I have not been (until late last night) able to access things like what is trending and the list I can now access is seriously diminished with new messaging to get used to from the platform providers at Twitter and Facebook.

I can't help but wonder if Chrystia Freeland planned it this way, it was after all her Grandfather who led the original German seizure of the free press in Germany in 1934 (*Interesting side note, **every single** Wikipedia listing for the night of long knives has been rewritten in the past few weeks to deflect the purging of free press in 1934 Germany*)

A quick rundown on a few other points that have recently come to light that I believe may have prompted Joe's visit,

Last week we covered what I believed (then and more now) is the most important NON-story of our lives, the announcements made by Presidents Putin and Xi. (still not much on Legacy media). BUT... since then;

- Ontario based Sinclair Technologies Inc. received a contract in October 2021 worth \$549,637 for radio frequency filters and a number of other contracts, worth upwards of \$90,000 each awarded to Sinclair Technologies since its parent company was bought in 2017, including with the RCMP, Fisheries and Oceans Canada, and the Department of National Defence.. In 2017, Hytera, which is partially owned by the Chinese government, purchased Sinclair Technologies' parent company, Norsat. Not only are Hytera's products banned from being sold or imported in the United States over national security concerns, but the company also faces 21 espionage-related offences, including conspiring with former Motorola employees to steal trade secrets

Even CNN reported that Joint Chiefs of Staff Gen Milley admits increased partnership between Iran, Russia, and China will make them 'problematic' for 'years: [edition.cnn.com/2023/03/29/politics/china-russia-iran-us-mark-milley-nuclear/index.html](https://edition.cnn.com/2023/03/29/politics/china-russia-iran-us-mark-milley-nuclear/index.html)

Remember the six pillars DNA (Declaration of North America) Joe has a problem: 1) **diversity, equity, and inclusion**; 2) climate change and the environment; 3) competitiveness; 4) **migration and development**; 5) health; and 6) **regional security**. **While joe and Justin extort us on demand of the UN to "Just Transition"** [www.visualcapitalist.com/where-are-clean-energy-technologies-manufactured/](https://www.visualcapitalist.com/where-are-clean-energy-technologies-manufactured/)

In the past couple of days, major nations are "Dedollarizing" [www.visualcapitalist.com/de-dollarization-countries-seeking-alternatives-to-the-u-s-dollar/](https://www.visualcapitalist.com/de-dollarization-countries-seeking-alternatives-to-the-u-s-dollar/)

France is doing major LNG deals in Yuan and others like India, Brazil, Mexico and others are lining up to trade their US trade dollars for Brics trade dollars. [trendingpoliticsnews.com/india-abandons-us-dollar-in-trade-deal-with-malaysia-paub/?utm\\_source=collin&utm\\_medium=twitter](https://trendingpoliticsnews.com/india-abandons-us-dollar-in-trade-deal-with-malaysia-paub/?utm_source=collin&utm_medium=twitter)

WHY? Gold backed international Currency: <https://www.visualcapitalist.com/charted-30-years-of-central-bank-gold-demand/>

A lot of nations will be deeply concerned while holding so much US debt: [www.visualcapitalist.com/which-countries-hold-the-most-us-debt/](https://www.visualcapitalist.com/which-countries-hold-the-most-us-debt/)

Where does this leave our allies? Where does this leave us when you start to look at the nations either dumping our debt or moving to alternative currencies it makes our future under CBDC's look a lot more realistically like slavery.

Kinda makes you wonder if China is permanently living in Joe's brain or if it was a 3 day Freudian slip because events since his visit have Canada more resembling 1934 Germany, 80's Cuba or North Korea, are Trudeau's problems becoming Joe's problems or vice versa...

Meanwhile Trudeau's net worth increase of more than \$400,000,000 in 7 years at \$350 k per isn't looking very conspicuous now is it lol

## Where are Clean Energy Technologies Manufactured?

As the market for low-emission solutions expands, China dominates the production of clean-energy technologies and their components.

\*Asia Pacific\* excludes China

### Shares of manufacturing capacity by region, 2021

Electrolyzers separate hydrogen gas from water molecules to be used for various industrial and commercial applications, including as energy for fuel cell cars and trucks.
