Players on the N.F.L.'s Covid List by Day

The league has seen a surge this week in players who have either tested positive for the coronavirus or come in close contact with someone who has. More than 150 players were on the Covid-19 list as of Thursday, according to Sharp Football Analysis.

150 players

The NFL on Friday postponed three games that were slated for this weekend, as more than 150 players were on the COVID-19 list as of Thursday

As of 12/15 94.6% of NFL players are vaccinated, and nearly 100% of NFL personnel are vaccinated
