

Checking in with the Clinton Slime Family "Post Durham"

Is there something new with all of the newest revelations on the relationships and connections between the Epstein/Gates/Biden swamp clans. Cleaner lenses to look through might make things a little clearer.

While we go through this dive I have a burning question, "how can it possibly be that Obama never comes up in any of this? That's not even mathematically possible (in my humble opinion)."

I started with a revelation from the 05/22/2023 Gateway Pundit that we could have written ourselves:

Biden DOJ Formally Shut Down Clinton Foundation “Investigation” in August 2021 – FBI Destroyed All Evidence!

www.thegatewaypundit.com/2023/05/biden-doj-formally-shut-down-clinton-foundation-investigation/

Surprise... not. They did elaborate on what the NYT reported they found a week ago via a FOIA that the D.O.J had held open "**A**" (**single**) Clinton investigation the entire time Trump was in office and then the FBI shut it down on 08/05/2021, just before he left office.

For four whole years the people of America held their breath thinking that at some point there would perhaps be a shred of accountability... it was a charade. They kept a sketchy influence case on the books, never gave an update and wiped the slate clean so the money laundering could continue through Trump's "unexpected Presidency". They bought time. Judicial Watch FOIA Sept 8, 2022 shows us that all the FBI did was run in circles and make excuses, and extend delivery dates. <https://www.judicialwatch.org/wp-content/uploads/2022/11/JW-v-DOJ-DATTO-Clinton-Email-order-02369.pdf>

Keep in mind this investigation was centered on the Clinton Foundation's dealings with foreign donors when Mrs. Clinton served as secretary of state. F.B.I. officials insisted that the department acknowledge in writing that there was no case. Foreign donors from nations like Canada that were now eligible to donate after some "changes" were made to the foundation structure... hmmm. There are too many millions of dollars to even track now that are routinely move back and forth between the Clinton Foundation and the Trudeau Foundation, and as we have seen over and over again through the Gates and Epstein Foundations at almost every other plot twist.

After the Peter Schweizer book: ***“Clinton Cash: The Untold Story of How and Why Foreign Governments and Businesses Helped Make Bill and Hillary Rich*** (According to The Post in 2015 - "From 2001 to 2012), the Clintons' income was at least \$136.5 million". Schweitzer elaborates with: “During Hillary’s years of public service, the Clintons have conducted or facilitated hundreds of large transactions” with foreign governments and individuals, he writes. “Some of these transactions have put millions in their own pockets.”

Mr. Schweizer is the president of the Government Accountability Institute, where Stephen K. Bannon, Mr. Trump’s former chief strategist, was a founder and the executive chairman. Clinton Foundation, Craig Minassian, said that the organization had been “subjected to politically motivated allegations with no basis in

fact.” <https://www.nytimes.com/2023/05/22/us/politics/fbi-clinton-foundation.html>

Here is an excerpt from the NYT book review 04/19/2015

“We will see a pattern of financial transactions involving the Clintons that occurred contemporaneous with favorable U.S. policy decisions benefiting those providing the funds,” Mr. Schweizer writes.

What Hillary Clinton Would Need to Do to Win

Mrs. Clinton can expect little if any opposition in the Democratic primaries. But she was similarly well positioned when she declared her candidacy in 2007.

His examples include a free-trade agreement in Colombia that benefited a major foundation donor’s natural resource investments in the South American nation, development projects in the aftermath of the Haitian earthquake in 2010, and more than \$1 million in payments to Mr. Clinton by a Canadian bank and major shareholder in the Keystone XL oil pipeline around the time the project was being debated in the State Department.

Canada - XL Pipeline: Alberta is Canada's Texas, not just the home of the pipeline but the most contentious province, that lost the most with the cancelation of the XL pipeline. The target/prize of the WEF and culturally the people Trudeau hates most in Canada. The pipeline loss of \$12 Billion in resource revenue in conjunction with the Extinction Rebellion eco-terrorism events were the "original" catalysts for the "populous freedom movement" aka "Trucker Convoys" and

hard left turn to mandatory implementation of the "Green New Deal" in Canada. This was 100% financed by democrat NGO and lobby groups in cooperation with Liberal and Democrat parties on both sides of the border. In Canada they even cohabitate with our National Resources Board. <https://yournews.com/2023/01/29/2502598/climate-terrorism-economic-warfare-12-trillion-and-counting/>

HISTORY

350.org was founded in 2008 by a group of university friends in the United States along with author Bill McKibben, who wrote one of the first books on global warming for the general public. The goal was to build a global climate movement. 350 was named after 350 parts per million — the safe concentration of carbon dioxide in the atmosphere.

Our first actions were global days of action that linked activists and organizations around the world, including the International Day of Climate Action in 2009, the Global Work Party in 2010, Moving Planet in 2011. 350 quickly became a planet-wide collaboration of organizers, community groups and regular people fighting for a fossil free future.

Today 350 works on grassroots campaigns across the globe: from opposing coal plants and mega-pipelines, to supporting renewable energy solutions and cutting financial flows to fossil fuels. All of our work leverages people power to dismantle the influence and infrastructure of the fossil fuel industry.

Some of our proudest moments of recent years include campaigning against the Keystone XL and Dakota Access pipelines in the United States; stopping fracking in hundreds of cities in Brazil and Argentina; pushing more than 1,000 universities, foundations, cities and churches to divest more than \$12 trillion from fossil fuels; and joining historic grassroots mobilizations like the People's Climate March and Global Climate Strike.

[Ten Years at 350.org](#)

We did find reference to work on the 350.org website from [Survival Media Agency](#). If you check out their [Facebook](#) mentions page wow, it is the "Who's MAC-DADDY Who" of Black Lives Matter, Extinction Rebellion, and all things Climate culture cult from around the world giving them the preverbal "Nod". (Impressive for a marketing agency with 1,000 followers on Facebook, 67 followers on Twitter and no advertising)

In all fairness there are endless numbers of these entities, funded from afar, intent on implementing far away agendas. Following up the "Green New Deal" initiative where many of today's "climate cult" lobbyists & influencers cut their teeth you now have the "Just Transition" campaign, and it's not just for Canada. The Board

I highlighted the part that was of particular interest to me today, Haiti and the XL Pipeline because I uncovered some connecting dots elsewhere last week.

<https://yournews.com/2023/05/24/2561801/un-wef-agenda-in-alberta-and-canada/>

Alberta connection to the WEF agenda.

Former Chief of Staff to Jason Kenney, Jamie Huckabay, from 2010 to 2015, was the Vice President of a global lobby organization based out of New York city. During that time, the following individuals were on the Board of Directors of [Gerson Lehrman Group](#):

- [Joseph Stiglitz](#), Senior advisor, President Bill Clinton, WEF since 1995.
- Barack Obama's campaign manager
- Hillary Clinton's campaign manager
- Democratic National Committee Chairman
- Former Ambassador to China
- Former CEO, Pfizer

Joseph Stiglitz, lead author of IPCC Climate Assessment; "We will have to change many aspects of how we live, how we organize our economies, our cities, and our transportation, energy, housing, and food systems." "Stiglitz argues that we need to move away from fossil fuels to renewable energies."

Let's take just a quick look at "Economist" Joseph Stiglitz
(https://en.wikipedia.org/wiki/Joseph_Stiglitz)

In 2016, he said he believes that the economic situation of the United States is critical: "As the economists Anne Case and Angus Deaton showed in their study published in December 2015, life expectancy among middle-age white Americans is declining, as rates of suicides, drug use, and alcoholism increase. A year later, the National Center for Health Statistics reported that life expectancy for the country as a whole has declined for the first time in more than 20 years."^[109] ... With the incomes of the bottom 90% having stagnated for close to a third of a century (and declining for a significant proportion), the health data simply confirmed that things were not going well for swaths of the country".^[112] ?".

Green economy [edit]

Stiglitz has called for a transition to a [green economy](#).^{[113][114][115]} He supported the [Green New Deal](#). In 2019, he wrote that "The Green New Deal would stimulate demand, ensuring that all available resources were used; and the transition to the green economy would likely usher in a new boom. Trump's focus on the industries of the past, like coal, is strangling the much more sensible move to wind and solar power. More jobs by far will be created in [renewable energy](#) than will be lost in coal."^[116] Stiglitz described the [climate crisis](#) as humanity's [World War III](#).^[116]

Today he is now also a virologist? "There can be no economic recovery until the virus is contained, so addressing the health emergency is the top priority for policymakers," writes economist Joseph Stiglitz. Carbon Capture and "Green Deals" are typically his jam.

Bill Clinton's Philanthropic World

The William J. Clinton Foundation oversees such projects as:

Clinton Foundation HIV/AIDS Initiative: since 2002 has helped bring treatment to hundreds of thousands of people in developing countries.

Clinton Global Initiative: since 2005 has garnered billions of dollars in commitments to attack poverty, hunger and disease.

Clinton-Hunter Development Initiative: aimed at stimulating economic growth in Africa with a \$100 million commitment from Scottish businessman Tom Hunter.

Clinton-Giustra Sustainable Growth Initiative: With an initial \$100 million commitment from Canadian businessman Frank Giustra, aims at attacking poverty in developing world.

Like Uranium One

April 23, 2015, he was selling his company, as the Russians gradually assumed control of Uranium One in three separate transactions from 2009 to 2013, Canadian records show a flow of cash made its way to the Clinton Foundation. Uranium One's chairman used his family foundation to make four donations totalling \$2.35 million.

Despite well-documented fraud and waste in the U.S. government's costly and ineffective Haiti recovery campaign, American taxpayer dollars keep flowing with no oversight. This month the Biden administration revealed it is dedicating an additional \$56.5 million <https://www.judicialwatch.org/us-gives-haiti-56-mil/>

According to John Durham's report, Hillary Clinton's plan to link Trump's campaign to Russia was briefed by former CIA Director John Brennan to Barack Obama and Joe Biden in August 2016!

The Durham Report told us the FBI never should have launched the Russia probe during the 2016 election, it also says the FBI rushed to investigate Trump. They didn't rush THE investigation of Trump, they rushed TO investigate him... It seemed like their sole purpose and no one cared what they were ignoring, like maybe the Four Investigations the FBI Suddenly Dropped Into Hillary and Bill Clinton Ahead of 2016 Election?

It was "Bama Business as usual" for all the money laundering machines, Canada, Ukraine, Haiti

At issue is a 2010 transaction in which the Obama Administration allowed the sale of U.S. uranium mining facilities to Russia's state atomic energy company. Hillary Clinton was secretary of state at the time, and the State Department was one of nine agencies that agreed to approve the deal after finding no threat to U.S. national security.

— Hillary Clinton speaks in Los Angeles on Dec. 15. Mario Anzuoni / Reuters

A senior law enforcement official who was briefed on the initial FBI investigation told NBC News there were allegations of corruption surrounding the process under which the U.S. government approved the sale. But no charges were filed.

If the FBI was following a partisan doctrine, who pulled their strings? Joe Biden?!?! Come on man! With this ship of fools It looks more like the compromised agencies knowingly attempted to carry the Obama (Cabal) water until Trump could be removed and Sleepy Joe could "ice cream -corn pop" his way through a 4 year coast. I think that loosely translates the Durham report anyway

It would seem that Trump, Hunter, Covid, Putin, God and a lot of us were not factored into their strategy accurately... now it's time for the preverbal heads to roll.
