

deep dive #15: George Soros, the "Ringleader" that binds them all.

There are lots of "Usual Suspects" whenever we bring up the "Dark Side" of anything. A handful of names cross over multiple spectrums of insanities world wide but there is only one name that seems to traverse them all. In every dark and evil plot you can imagine, the name George Soros is there. When it comes to influence buying and peddling, he is the current "Godfather" of them all.

We have heard a lot on him most recently connected to every crown prosecutor in every location he can find to fund them and then to have them engage in the most vexatious or ridiculous case of law fare imaginable. The tactics being used against every semblance of sanity or person who gets in the way of the "New World Order." George desperately wants to see it fulfilled before he dies. He must be running out of time right?!?!? One of the problems I see is that this man at 92 (and all of his evil cronies) somehow seems to out live every good guy!

Besides being known as "The Man Who Broke the [Bank of England](https://en.wikipedia.org/wiki/Black_Wednesday)" https://en.wikipedia.org/wiki/Black_Wednesday in 1992 when the UK Government was forced to withdraw its sterling from the European Exchange. The UK Treasury lost about £3.14 Billion pounds, George netted a Billion. Not bad for a days work and he's been repeating it ever since. https://is.muni.cz/el/1456/podzim2011/MPF_AFIN/um/27608616/27608949/Black_Wednesday.pdf

Currently George keeps about \$8 Billion around after having donated more than \$32 billion to the Open Societies Foundation" https://en.wikipedia.org/wiki/Open_Society_Foundations

Who is George?

- Born **György Schwartz**, August 12, 1930 Hungarian-American businessman and philanthropist.
- 15 years old at the end of WWII
- moved to the United Kingdom in 1947, BSc of philosophy in 51, Masters in 54.
- by 1969 he launched his first Hedge fund called 'Double Eagle,'
- in 1970 he launched his 2nd called Soros Fund Management https://en.wikipedia.org/wiki/Soros_Fund_Management
- 1973 George partners up with Jim Rogers https://en.wikipedia.org/wiki/Jim_Rogers and Double Eagle was renamed Quantum Fund & managed \$12 million in assets at the time, it now has \$25 Billion https://en.wikipedia.org/wiki/Quantum_Group_of_Funds
- In 1993, the Open Society Institute was created in the [United States](#) to support the Soros foundations in Central and Eastern Europe and Russia
- 1995 the Blinken Open Society Archives was founded by [George Soros](#) In 2010, Blinken OSA was awarded the Joseph Pulitzer Memorial Prize in the History of the Press category
- 1995, Soros stated that he believed there can be no absolute answers to political questions because the same principle of reflexivity applies as in financial markets [https://en.wikipedia.org/wiki/Reflexivity_\(social_theory\)](https://en.wikipedia.org/wiki/Reflexivity_(social_theory)) **reflexivity** refers to circular relationships between cause and effect, especially as embedded in human belief structures. With economics it refers to the self-reinforcing effect of market sentiment, whereby rising prices attract buyers whose actions drive prices higher still until the process becomes unsustainable. This is an instance of a positive feedback loop. The same process can operate in reverse leading to a catastrophic collapse in prices.

November 1998 George Soros was in Haiti with Hillary Clinton (video-clip-1))

Later on she was introducing him as he announced he would be influencing political policy in America (video-clip-2)

By 2006 he was all about social finance in Canada.

Scaling Up the Canadian Social Finance Sector

Strategy Session

October 19 and 20, 2006

To that end, Tides Canada, J.W. McConnell Foundation and PLAN, with funding from Vancity Credit Union, hosted a 1.5 day social finance strategy session with national leaders in social finance on October 19 and 20, 2006. A meeting that was a follow-up from two previous sessions on 21st Century Social FinanceThe Social Purpose Capital Marketplace: An Opportunity for the Canadian Charitable Sector: <https://corostrandberg.com/wp-content/uploads/2006/12/scaling-up-the-canadian-social-finance-sector.pdf>

SPOs (Social Purpose Organizations) are important economic contributors. They are also key to Canada's advancement of the United Nations' 2030 Agenda and its Sustainable Development Goals. That is why the Government of Canada has established the Social Innovation and Social Finance (SI/SF) Strategy. The SI/SF Strategy helps SPOs access flexible financing opportunities that enable them to grow and enhance their impacts. <https://www.canada.ca/en/employment-social-development/programs/social-innovation-social-finance.html>

When we see this 19 years later their 'examples' should make our blood curdle...

Social Finance Example 1:

Immunisation Bond

The International Finance Facility for Immunisation (IFFIm), managed by the World Bank, is selling 5-year bonds, which yield between 30 and 33 basis points above similar-maturity US Treasury notes. The UK, France, Spain, Italy, Sweden and Norway have pledged \$4 billion over 20 years to Microsoft Corp. founder Bill Gates' GAVI Alliance to fight diseases such as hepatitis and yellow fever. By selling bonds backed by the contributions, the countries will enable the money to be spent immediately. The GAVI Alliance says the money will save 10 million lives in countries from Afghanistan to Zambia. IFFIm has AAA ratings from Moody's Investors Service, Standard and Poor's and other rating agencies.

 - 2012 RT and Newsweek, '**George Soros predicts riots, police state and class war for America**' what George said is chilling today: <https://www.rt.com/usa/george-soros-class-war-619/> He offered a word of warning: a period of "evil" is coming to the western world. "***I am not here to cheer you up.*** The situation is about as serious and difficult as I've experienced in my career," Soros tells Newsweek. "We are facing an extremely difficult time, comparable in many ways to the 1930s, the Great Depression. We are facing now a general retrenchment in the developed world, Soros says that, despite past events providing a perfect example of what is to come, the end of an empire seems imminent. On the way to a full-blown collapse, he cautions, Americans should expect society to alter accordingly. George also stated "The recent adoption of the National Defense Authorization Act for Fiscal Year 2012 and the proposed Enemy Expatriation Act, if approved, have already very well paved the way for such a society which, carried to an extreme, could bring about a repressive political system, a society where individual liberty is much more constrained
 - In November 2015, [Russia](#) banned the activities of the Open Society Foundations on its territory, declaring "It was found that the activity of the Open Society Foundations and the Open Society Institute Assistance Foundation represents a threat to the foundations of the constitutional system of the [Russian Federation](#) and the security of the state".

Social equity lens

Incorporation of a gender, diversity and inclusion analysis into processes and decision-making, including consideration of intersectionality. A social equity lens will be incorporated into all elements of the SFF's design and delivery to encourage processes and decisions that remove barriers, address systematic bias, and promote equal opportunity for all.

Social equity lens investment

The definition of a social equity lens investment will be finalized in partnership with selected wholesalers, building upon existing definitions in use in the social finance sector. ESDC may also work in partnership with the selected wholesalers to further strengthen the use of a social equity lens in alignment with the objectives of the SFF. For the purposes of this Call for EOI, "social equity lens investments" may broadly refer to capital directed towards:

- social purpose organizations that are majority owned or led (more than 50%) by equity-deserving groups
 - social purpose organizations that promote workplace equity (in other words, have processes in place to address structural disparities and constraints around the leadership of equity-deserving groups, such as the existence/development and implementation of policies around compensation, career progression, et cetera)
 - social purpose organizations that offer products or services aiming to address the root causes of social issues and the diverse needs of equity-deserving groups (for example, a project that educates and engages boys and men to prevent violence against women)
-
- Fund managers are required to incorporate a [social equity lens](#) to ensure diversity and inclusion considerations are incorporated into decision-making processes and outcomes, to benefit equity-deserving groups that face barriers to economic inclusion and lack access to investment capital
 - In 2017, the government of Pakistan ordered the Open Society Foundations to cease operations within the country

Now for a new introduction, a July 2018 AIM headline reads **World Wide Election Rigging by the Queen's Privy Council**. He suggests that rigged electronic voting machines are owned by **LORD MARK MALLOCH-BROWN George Soros and Mitt**

Romney! The allegations are that there is multi-national involvement involved in ongoing election fraud in America.

https://aim4truth.org/2018/07/21/lord-mark-malloch-brown-the-globalist-racketeer-kingpin-running-the-queens-privy-council-with-george-soros/amp/?_twitter_impression=true

THEY HIDE BEHIND THE QUEEN'S COVER

Hiding behind the Queen's brand, their goal is a one-world government administered by unelected UN bureaucrats and directed by the Privy Council. It is also clear that the United States is to be their primary source for weaponized inventions, a killer 5G satellite population reduction plan through "The IBM Internet of Things," combined with killer pharmaceuticals, and a global police force.

As case in point, right now, today, the British Privy Council-directed SERCO company runs the [U.S. Patent Office, FEMA Region 9](#) (AZ, CA, HI, NV and Pacific Islands), 63 [U.S. FAA air traffic control towers](#) and the [Obamacare](#) website. They also help manage the U.S. Department of Defense's [Space Wars](#) program! Besides the obvious betrayal of sovereignty by Deep State shadow government [Senior Executive Service \(SES\)](#) officials who have orchestrated this, this is evidence that Malloch-Brown's Privy Council plans are much further along than one can possibly imagine.

Lord Mark Malloch-Brown, George Soros and Mitt Romney control over 90% of electronic voting machines in the U.S.

During the course of this research, it took an unexpected turn. Malloch-Brown does not hide his deep associations with globalist warlord George Soros—who does not appear bothered by comparisons of him to Satan (*Financial Times*, Sep. 28, 2004). [Update: This article was removed from public access soon after this article was posted. We are working to find a copy. Stay tuned.] Malloch-Brown also does not hide his ownership and control of the electronic voting machine Smartmatic.

Further digging discovered that the "OpTech" software engine inside Smartmatic was ordered by the Obama-Holder Justice Department to be deployed in all electronic voting machines used in the U.S. including Smartmatic, ES&S, Diebold, Sequoia, Dominion and Hart InterCivic.

While technology insiders have been warning about this corruption for years, it now appears to be reaching the consciousness of the general public, thankfully. See [Citizens Can Prevent Election Fraud, American Intelligence Media](#) (May 2, 2018).

The bottom line is this: Lord Malloch-Brown's globalist forces have hijacked the entire landscape of electronic voting machines, have weaponized them, and are poised to strike during the 2018 midterm elections.

One of our dives would not be complete without the FBI seeming suspect <https://www.fbcoverup.com/docs/library/Scrap-Electronic-Voting-Machines-NOW.pdf>

Scrap Corruption-ridden Electronic Voting – Now!

Finding: All prominent electronic voting systems in the U.S. (Smartmatic, Sequoia, Diebold, ES&S, Dominion and Hart InterCivic) are networked to the *same* software engine and controlled by the same financiers tied to George Soros and the Queen's Privy Council, thus making corrupt practices in U.S. elections a foregone conclusion. Lord Mark Malloch-Brown and Sir Geoffrey E. Pattie brag about their ability to "bend" elections, protected by the Queen.

Recommendation: In addition to the companies identified below, there are other companies trying to make voting secure with jpegs, separate validations, etc. on separate machines. However, no tech of any kind can maintain a "bipartisan chain of custody." The human eye cannot see silicon circuits, software induced voltages, and that which is hidden from empirical observation. We can only 'trust' the process and the people. Electronic voting offends the entire concept of our Republic -- which was formed on the concept that authority, being given from the "power of the people" who gain it directly from God, must be separated with jurisdictional boundaries so that the "tendency of men with too much authority to 'oppress'" can be muted by that separation. Centralizing the voting process so that the 'Fake News' can report a sensationalized and profitable result is pure idiocy. We the People should not trust government. We must insist at all times and under all circumstances that dual-Federalism is maintained. The job of the People is to ensure that the boundaries are maintained. We must all be mechanics of the Republic. The following voting machines must be scrapped immediately as the fruit of a poisoned tree called technocracy.
