

# Remembering someone special

---

Memories of a loved one are precious.

We offer a free online tribute page with MuchLoved. You can use it to share the funeral details, order of service and livestream link with family and friends.

The page can be private and by invite only, or public, and includes a QR code which can be added to the order of service. By sharing your page, you can invite others to add their photos, stories and messages of condolence or donate to a chosen charity, if they wish. They can also light candles in memory.

Over time, these memories can become a source of comfort and a lasting reminder of the love and impact your loved one had.

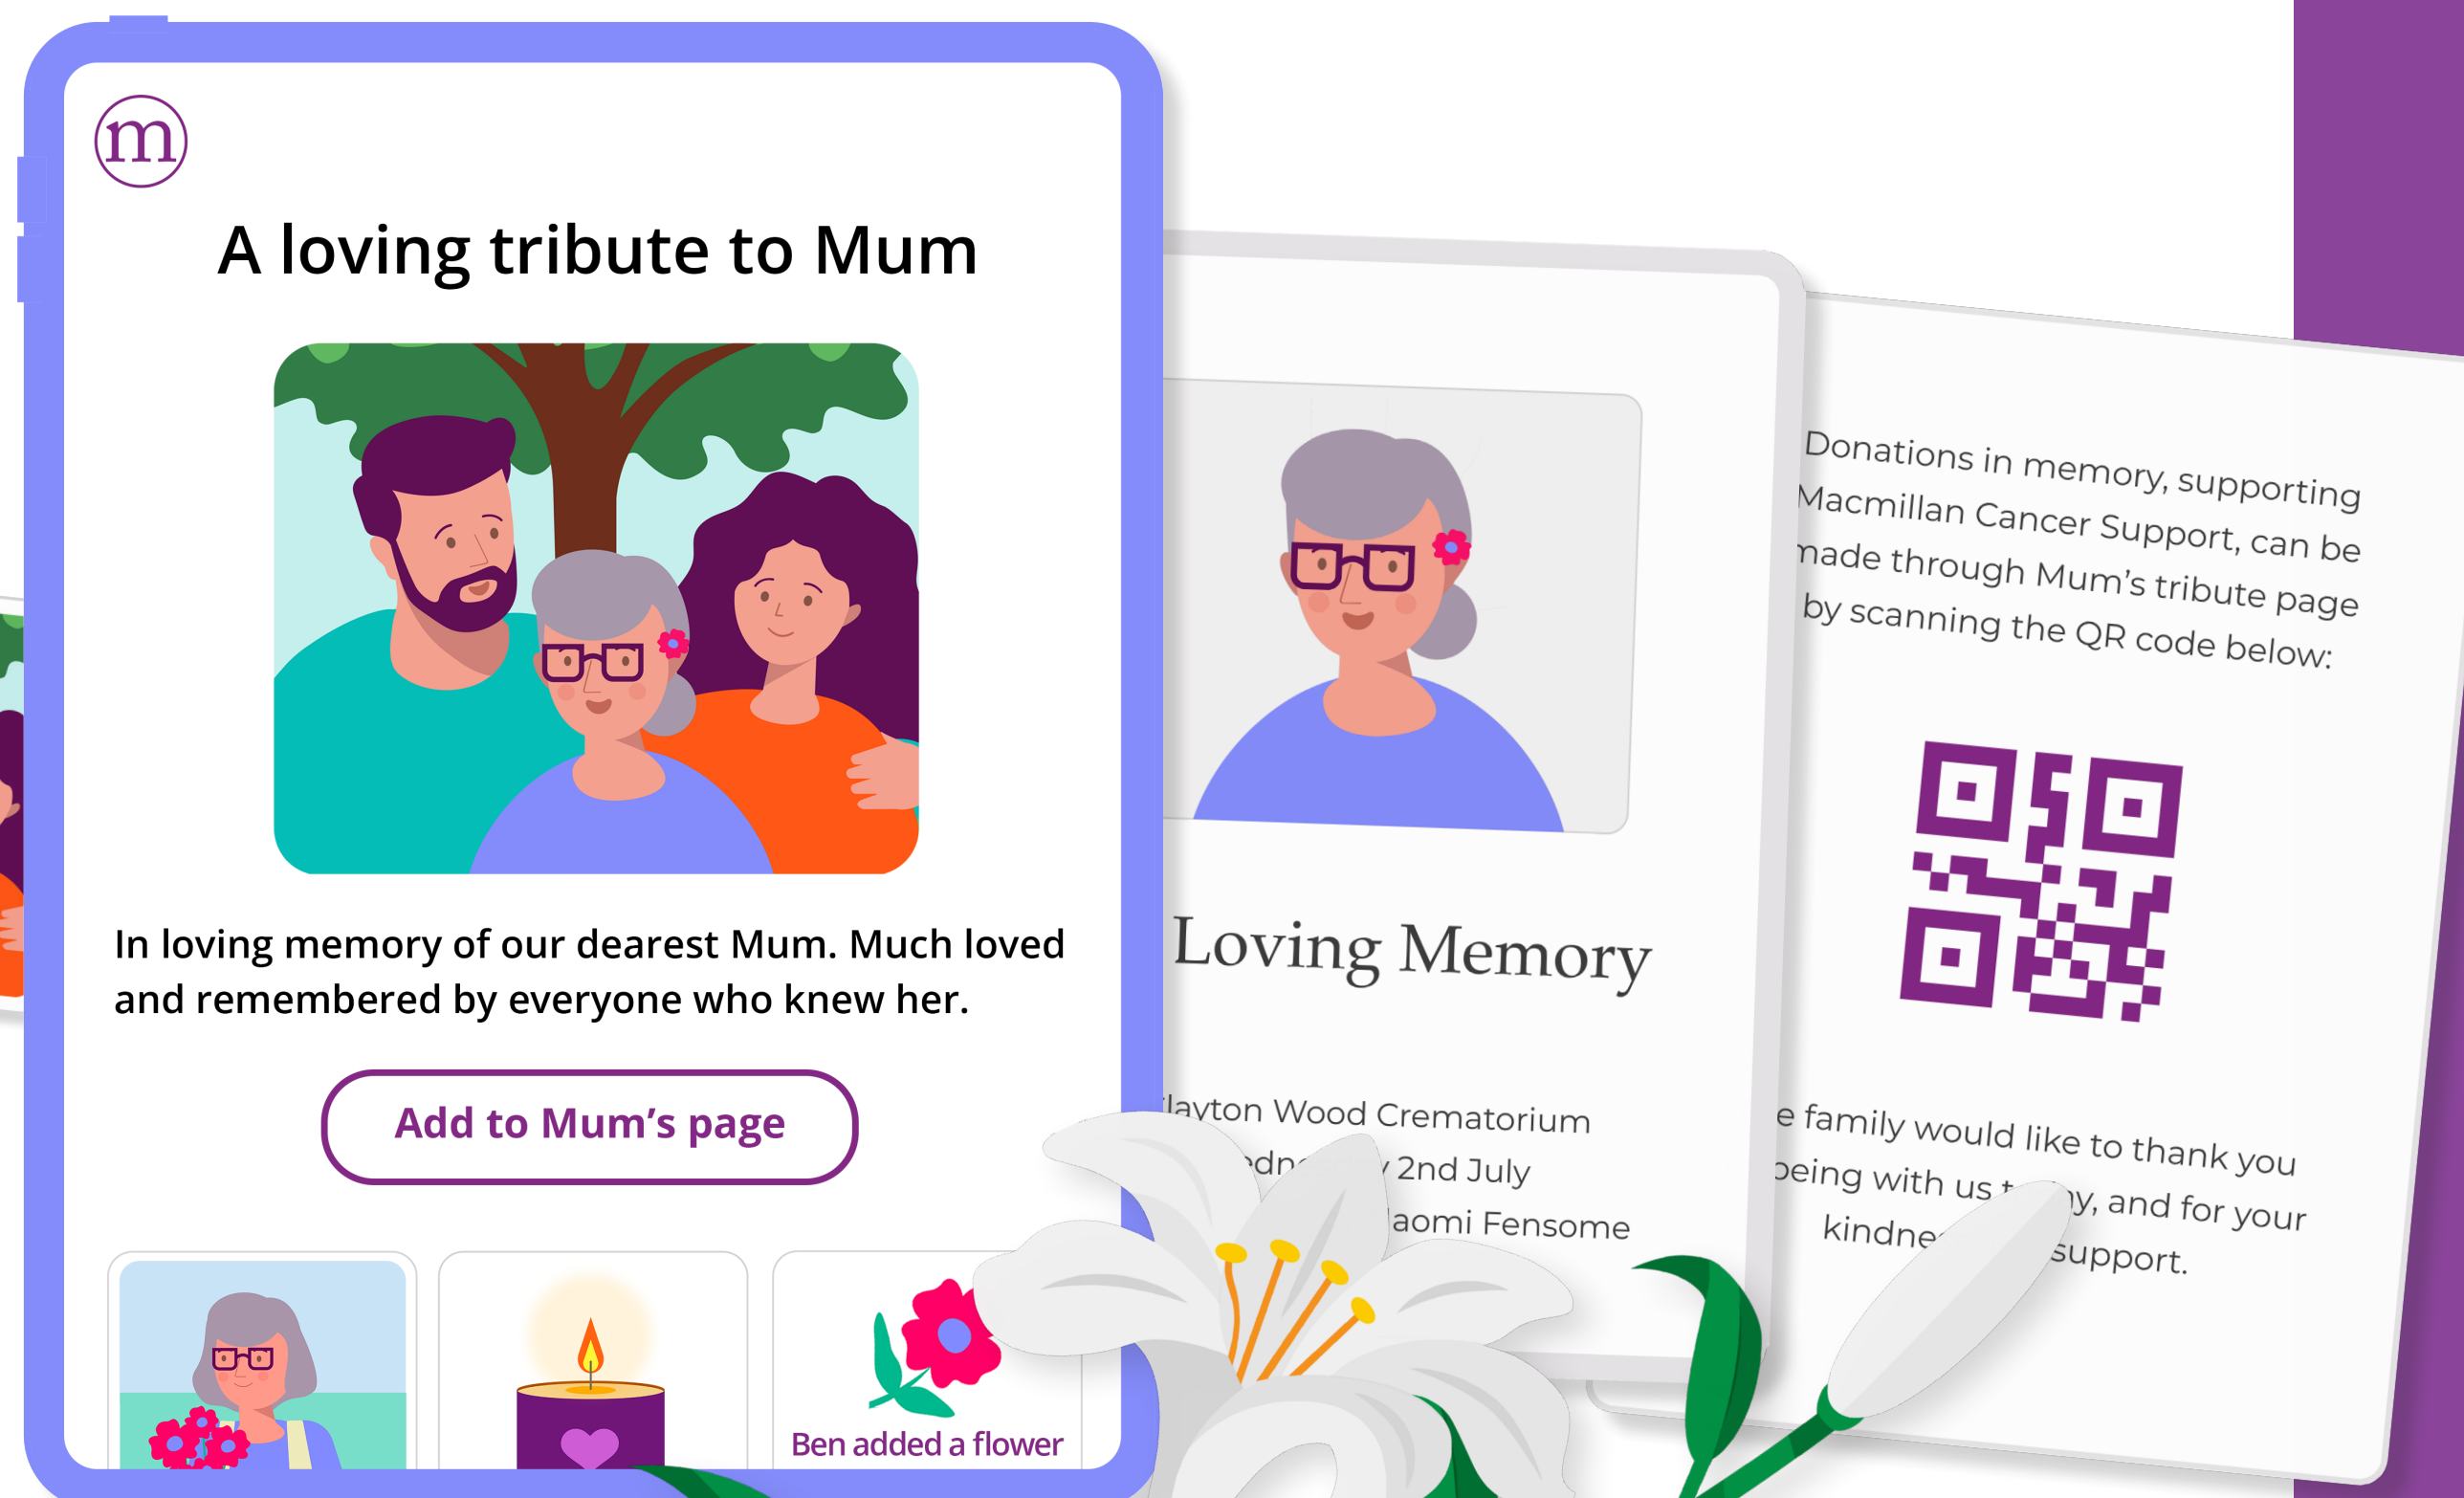

much  loved

## Unique, beautiful and lasting

You can personalise the page to reflect the life and interests of the person you are remembering. You can add cherished videos and the music they loved. The page is yours to keep for as long as you wish.

We hope that your tribute page offers you some comfort and that it honours your loved one in a way that's meaningful for you.

## Donations in memory

You can collect funeral donations easily and securely through the tribute, with GiftAid automatically added.

You can choose to support any UK charity or hospice, and continue fundraising at a later date through events or other meaningful activities.

This service is provided in partnership with MuchLoved, the in-memory platform. Need help or have a question about the service? Contact MuchLoved's friendly team:
