Creating beautiful flower tributes

www.sarahcoxonfloraldesign.co.uk

Hello,

Please let me introduce myself, I'm Sarah Coxon and I have been working with flowers since I was 16 years old when I worked in a Norwich florist on a Youth Training Scheme. I was then, and still continue to be inspired by nature and the beauty of flowers.

I live in a rural setting surrounded by woodlands, which often inspires me, (usually when I'm walking my dogs!), to create something natural and rustic when it is asked for.

As you will see as you look through this brochure, I make all different designs from traditional wreaths and sprays to bespoke 3D tributes. If you are having trouble deciding or cannot see what you would like, I am always happy to help with advice and guidance.

I also offer a home visiting service, where I would travel to you at an agreed time (evening and weekends included) and discuss your flowers with you and your family in the comfort of your own home. This is a free service I offer to help my customers at this difficult time.

Personally, I feel it is a privilege to create a floral tribute, however large or small. All my tributes are made of the highest quality of flowers with an eye to detail, I can assure you of a truly special tribute.

Sarah

These colour combinations are available in all designs

MIXED POSY

The mixed posy is a round shaped arrangement, which is raised in the centre.
A variety of flowers can be included, for example
Roses, Spray carnations, Chrysanthemums,
Lisianthus, Gerbera and other seasonal flowers.
