

Lambda Kappa Omega Sorority, Inc. Youth Mentoring Programs Overview

Greetings!

Did you know that **Lambda Kappa Omega Sorority, Inc.** was the first non-collegiate Greek organization to incorporate a youth mentoring program into its bylaws? Our sorority is deeply committed to the growth, development, and empowerment of young girls and young ladies through structured mentorship and leadership opportunities.

Lambda Kappa Omega Sorority, Inc. offers three dynamic youth programs:

- 1 Future Crystallites Auxiliary: For girls ages 4–6.
- 2 Lambda Crystallites Auxiliary: For girls ages 7–12.
- 3 Kappa Gamma Omega Sorority Girls: For young ladies ages 13–17.

Notably, the youth line was the first to cross into Lambda Land before the women of the sorority. Our youth members conduct their own meetings and gain valuable life skills such as money management, leadership, accountability, and confidence-building. We encourage them to embrace both their internal and external image through sisterhood, friendship, and knowledge. Within a supportive and engaging social environment, we prepare these young ladies for success in their present and future endeavors.
