

Lambda Kappa Omega

OnLine Learning
Week 2 - The Basics

This week, we will focus on the Basic meeting information and its purpose.

Line up We line up because it is a way to keep order between the LINE and Sorority Members. It establishes deference on the line. The # 1 always keeps their hand locked to secure the locking

Locking Up- Locking up is a form of unity. It signifies that you are connected to one another.

To lock up the person behind you, grab under the arms firmly (there should be no space between the two ladies). The sorority members will attempt to break the line when multiple women are online. (this is done to "tighten up the line")

Terms-

Ace- the one

Tail- Last person on the end of the line

Pop -out- Jump out of Line

Break the Line- Forcefully separating the sisters from each other

Face Means to turn and face forward (in the Black boots video you watched they say profile)

Line Means to either face forward if you are standing in face position or get in line if you are doing something else.

Lock- Means to lock up

Never let someone on your line who is not your line sister or Sands. If they stand in front of you, turn sideways. If they stand behind you, push yourself against a wall.

Head Movements

Head right when you say LAMBDA (Every time you say Lambda in a spiel)

Up when you say KAPPA

Front for OMEGA

Calling Spiels/ History- this is done by the first person in the line.

Example: "Potentials Founders" -followed by 2-foot stomps - will let your sisters know to start reciting the spiels.

At the Sapphire stage, it would be:
