The stretch of the fabric is cut length-wise of the body NOT crosswise of the body. Girth is measured from one shoulder down through the crotch and up the back to the shoulder forming a loop.

For those with measurements that exceed our Ladies Large, additional fees may be imposed to cover necessary drafting time and additional yardage. If your weight and height fall near the end or within 10 pounds of one size, go to the next size.

The measurements listed are approximate of an unstretched garment. Different dress styles and various fabrics will have different measurements. Dresses that are heavily embellished with beads, stones and/or trim will result in smaller measurements and a tighter fit.

I usually do not stock dresses but may have a small supply on hand. Please note that all dresses can be made in any size or color unless otherwise noted.
