Why Healthy Vending

Southern California and especially the Los Angeles culture is active and busier than ever. Despite being on the go or stuck in the workplace they are looking for healthier snack and drink options in contrast to the high sugar, high fat and high calorie typical candy bar and soda machines offer. Elevated Wellness Vending can provide your employees, customers, clients, patients, students with delicious snacks, drinks and meals without compromising their health and well-being.

Our Mission

Provide healthy alternative vending options to allow students, employees and customers make healthy decisions and support their lifestyle goals.

Convenience without compromise.

Benefits of Partnering with Elevated Wellness Vending

Vending machines are 100% free - No strings attached or additional cost to you

Unparalleled Customer Service – Operated by owners groomed in the hospitality and restaurant industry with an emphasis for complete customer satisfaction. We are a small business locally owned and operated out of the South Bay which provides the flexibility to service locations as often as needed with our own personal touch.

State of the Art Vending Technology – All Vending Machines are brand new and proudly made in the USA. All vending machines are equipped with timing technology, power saver modes, remote monitoring for real time inventory status, and can be programmed with discounts or other customer incentive settings. Additional video media device can be installed to display company announcements and/or advertisements.

Cashless Purchasing - For greater flexibility, our machines accept credit and debit cards as well as cash.

Customizable Selections – Every location is different, and products will be tailored for the consumers. Machines can be stocked with curated selections for schools, corporate offices, gyms, and hospitals or they can be pre-defined at the request of the location.
