

## 1953 MG TD For Sale

### 1953 MG TD

TD/18864 EXL/NA

XPAG/TD2/19217

Build Date: 19-Aug-1952

Original ID plate and octagonal engine ID tag, all numbers match. Very nice looking and driving TD.

Current owner purchased this TD in March 1973 and has enjoyed it for the past 53+ years.

The body was disassembled and stripped to bare metal, primed, and painted in 1986. The body was reassembled, and then fitted with new interior panels, leather seats, hood (top), full tonneau, and side curtains using Moss items and kits. The hood, tonneau, and side curtains are tan canvas Stayfast. Owner did the disassembly and reassembly.

It was repainted ivory (cream), the original exterior color; and the interior was redone in the original color green. The paint presents well with minor paint chips.

No rust was found during disassembly. One small dent was repaired in each rear fender, and an antennae hole was repaired in the rear splash apron. Wood top rail over windscreen, and 3-piece tacking strip set were replaced. The rest of the wood is good.

Rare **Runyon** fiberglass hardtop with side curtains and mounting hardware is included.

Engine rebuilt in 1981 and transmission was rebuilt in 1996.

Twin SU's rebuilt by Bob Johnson in 2016.

Water pump rebuilt with 6-vane impeller by Butch Taras in 2013.

Brake master cylinder and all wheel cylinders were replaced in 2017. Brakes bled in 2024.

All lights and horn work. Clock and wiper motor are not operational.

New 165-80R15 radial tires mounted in May 2024. The spare has never been driven on.

Battery replaced in June of 2025.

This well taken care of TD is located in Sheboygan, Wisconsin and has a clear Wisconsin title in the name of the seller.

Asking \$21,500 or offer.
