During our public townhall we will be presenting material that will help remind Texians and newcomers about Who we are as the republic of Texas, What we have to offer and Why it is important to become a Texian and to stay engaged or to get involved! We have many seats available that need filled & we need fellow Texians in all areas of Texas to consider putting on townhalls soon in order to reach more people.

Guest speaker: Bruce Engleman - Bio: Broadcaster, radio show host, political activist, pastor & missionary. Enthusiastic about the mysteries of life, Bruce felt something was "off" regarding the tragic JFK assassination. His quest for truth surrounding various stories pressed him to capture conclusions in a book. He will bring forth a lively discussion about what happened in the 60's changed the face of America today.
