INDEPENDENT AUDITORS' REPORT

The Honorable Mayor and the Town Council
Town of Clifton, Arizona
Clifton, Arizona

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Clifton, Arizona, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Town's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

The Honorable Mayor and Town Council of the
Town of Clifton, Arizona

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Clifton, Arizona as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of a Matter

During fiscal year ended June 30, 2015, the Town of Clifton, Arizona adopted GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date—an amendment of GASB Statement No. 68*. As a result of the implementation of GASBS No. 68 and No. 71, the Town of Clifton, Arizona reported a restatement for the change in accounting principle (see Note 3.E.) Our auditors' opinion was not modified with respect to the restatement.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 9, the pension schedules on pages 50 through 55, and budgetary comparison information on pages 57 through 59 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**TOWN OF CLIFTON, ARIZONA
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2015**

We (the Town of Clifton, Arizona (Town)) are pleased to provide an overview of our financial activities for the fiscal year ended June 30, 2015. The intended purpose of Management's Discussion and Analysis (MD&A) is to provide an introduction to the basic financial statements and notes, that provides an objective and easy to read analysis of our financial activities based on currently known facts, decisions, and conditions, by providing an easily readable summary of operating results and reasons for changes, which will help to determine if our financial position improved or deteriorated over the past year. This report addresses current operational activities, the sources, uses, and changes in resources, adherence to budget, service levels, limitations, significant economic factors, and the status of infrastructure and its impacts on our debt and operations.

FINANCIAL HIGHLIGHTS

- ◆ The assets of the Town of Clifton, Arizona exceeded its liabilities at the close of the most recent fiscal year by \$5,003,854 (net position). Of this amount \$284,229 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.
- ◆ As of the close of the current fiscal year, the Town of Clifton, Arizona's governmental funds reported combined ending fund balances of \$2,138,412, a decrease of \$401,460 in comparison with the prior year.
- ◆ At the end of the current fiscal year, unassigned fund balance for the General Fund was \$1,675,291 or 52% of total General Fund expenditures.
- ◆ General Fund revenues (on a budgetary basis) exceeded budgeted revenues by \$74,393 for fiscal year 2015. Additionally, budgetary basis expenditures were only 92% (\$236,849 (8%) in savings) of the final budget in the General Fund.
- ◆ General Fund budgetary expenditures exceeded budgetary revenues by \$356,602 which represented a positive variance of \$311,242 from the original budget.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial section of these Financial Statements for the Town of Clifton, Arizona consists of this discussion and analysis, the basic financial statements and the required supplementary schedules presented after the basic financial statements. The basic financial statements include the government-wide financial statements, fund financial statements, including the budgetary statements for the General Fund, Highway Users Revenue Fund, and Arizona Department of Emergency Management Fund and notes to basic financial statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Town of Clifton, Arizona's finances, in a manner similar to private-sector business.

The statement of net position presents information on all of the Town of Clifton, Arizona's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as useful indicators of whether the financial position of the Town of Clifton, Arizona is improving or deteriorating.

**TOWN OF CLIFTON, ARIZONA
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2015**

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the Town of Clifton, Arizona that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Town of Clifton, Arizona include general government, public safety, highways and streets, culture and recreation. The business-type activities include sewer operations.

The government-wide financial statements can be found on pages 10 - 11 of this report.

Fund Financial Statements

Also presented are the traditional fund financial statements for governmental funds. The fund financial statements focus on major funds of the Town. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Clifton, Arizona, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town of Clifton, Arizona can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

- ◆ *Governmental Funds* – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. Since the governmental fund financial statements focus on near-term spendable resources, while the governmental activities on the government-wide financial statements have a longer term focus, a reconciliation of the differences between the two is provided with the fund financial statements.

The basic governmental fund financial statements can be found on pages 12 - 15 of this report.

- ◆ *Proprietary Funds* – The Town of Clifton, Arizona maintains one type of proprietary fund. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The Town of Clifton, Arizona uses an enterprise fund to account for its sewer operations.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the sewer fund, which is considered to be a major fund of the Town of Clifton, Arizona.

The basic proprietary fund financial statements can be found on pages 16 - 18 of this report.

**TOWN OF CLIFTON, ARIZONA
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2015**

- ◆ *Fiduciary Funds* – Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Town of Clifton, Arizona's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 19 - 20 of this report.

Notes to Basic Financial Statements

The notes to basic financial statements (pages 21 -49) provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements and should be read with the financial statements.

Required Supplementary Information other than MD&A

Governments have an option of including the budgetary comparison statements for the General Fund and major special revenue funds as either part of the fund financial statements within the basic financial statements, or as required supplementary information after the footnotes. The Town has chosen to present these budgetary statements as part of required supplementary information on pages 57 through 59. Additionally, governments are required to disclose certain information about employee pension funds. The Town has disclosed this information on page 50.

Government-Wide Financial Analysis

Net position may serve over time as useful indicators of a government's financial position. The following table reflects the condensed Statement of Net Position of the Town for June 30, 2015 showing that assets exceeded liabilities by \$5,003,854.

**TOWN OF CLIFTON, ARIZONA
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2015**

The net position of the Town is \$5,003,854 in fiscal year 2015 in the governmental and business-type activities.

Net position consists of three components. The largest portion of the Town of Clifton, Arizona's net position (86%) reflects its investment in capital assets (e.g., land, buildings, sewer collection system, furniture, equipment and vehicles), less any related debt used to acquire those assets that is still outstanding. The Town of Clifton, Arizona uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town of Clifton, Arizona's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the Town of Clifton, Arizona's net position (8%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position (\$284,229) may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the Town of Clifton, Arizona is able to report positive balances in all three categories of net position for the government as a whole.

**TOWN OF CLIFTON, ARIZONA
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2015**

Governmental Activities – Governmental activities increased the Town's net position by \$415,650. Key factors contributing to the increase include an increase in state shared sales taxes, operating grants and contributions, and capital grants and contributions.

Business-Type Activities – Business-type activities decreased the Town's net position by \$19,024. This decrease was attributable to the current year operating loss of the sewer system.

FINANCIAL ANALYSIS OF THE TOWN'S FUNDS

The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of resources that are available for spending. Such information is useful in assessing the Town's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. Types of Governmental funds reported by the Town include the General Fund and Special Revenue Funds.

As of the end of the current fiscal year the Town's governmental funds reported combined ending fund balances of \$2,138,412, a decrease of \$401,460 in comparison with the prior year. Approximately 82% of this total amount, \$1,755,092 constitutes General Fund balance, which is available for contribution to the committed, assigned and unassigned fund balance. At fiscal year-end 2014-2015 fund balances were as follows:

**Table A-3
Fund Balances**

Fund	Balance	Increase (Decrease) From FY 2013-14
General Fund	\$ 1,755,092	\$ (501,365)
Highway Users Revenue Fund	369,222	116,174
Arizona Department of Emergency Management Fund	-	-
Nonmajor Governmental Funds	14,098	(16,269)

The General Fund is the chief operating fund of the Town of Clifton, Arizona. At the end of the current fiscal year, the fund balance of the General Fund was \$1,755,092, while total fund balance reached \$2,138,412. As a measure of the General Fund's liquidity, it may be useful to compare both General Fund balance and total fund balance to total fund expenditures. General Fund balance represents 54% of total General Fund expenditures, while total fund balance represents 66% of that same amount. The fund balance of the General Fund decreased due to an excess of expenditures over revenues in the current year as the Town spent additional funds on capital projects and on fully staffing the Town's police department.

The fund balance of the Highway Users Revenue Fund increased by \$116,174 as a result of the Town less expenditures on rehabilitation and other road related projects in the current year in comparison to 2014.

All nonmajor governmental funds of the Town are combined into one column on the governmental fund statements and the decrease in fund balance of \$16,269 was not significant.

MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2015**

BUDGETARY HIGHLIGHTS

The Town's annual budget is the legally adopted expenditure control document of the Town. Budgetary comparison statements are required for the General Fund, the Highway Users Revenue Fund, and the Arizona Department of Emergency Management Fund and are found on pages 57 - 59. These statements compare the original adopted budget, the budget if amended throughout the fiscal year, and the actual expenditures prepared on a budgetary basis.

General Fund revenues of \$2,208,261 on a budgetary basis, were greater than budgeted revenues of \$2,133,868 by \$74,393 while budgetary basis expenditures of \$2,564,863 were only 92% of budgeted expenditures (savings of \$236,849). The budget savings was primarily due to the Town experiencing a cost savings in the code enforcement, police, and parks departments and an uptick in sales tax revenues.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

The Town's capital assets for its governmental and business-type activities as of June 30, 2015 amounted to \$4,298,308 (net of accumulated depreciation), a net increase of 33%. For government-wide financial statement presentation, all depreciable capital assets were depreciated from acquisition date to the end of the current fiscal year. Fund financial statements record capital asset purchases as expenditures. See Note 3.A.3. in the Notes to Basic Financial Statements for further information regarding capital assets.

Capital assets include land, land improvements, buildings and improvements, infrastructure, sewer system, and furniture, equipment, and vehicles. During fiscal year 2015 the annual depreciation expense for governmental activities was \$268,687 and depreciation expense for business-type activities was \$32,126. Additions to governmental activities capital assets during the fiscal year totaled \$1,296,527. Additions to business type activities capital assets during the fiscal year totaled \$94,424. Major capital asset events during the current fiscal year included the following:

- ◆ Repair and resurfacing of Ward Canyon Road
- ◆ Roof Repair and replacement for the Town Hall
- ◆ Purchase and installation of new splash pad and related facilities
- ◆ Upgrades and repairs to the Town's sewer system

The following table provides a breakdown of the capital assets of the Town at June 30, 2015 and 2014.

TO THE STATEMENT OF ACTIVITIES

Net Change in Fund Balances-Total Governmental Funds \$ (401,460)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Expenditures for Capital Assets	1,296,527
Less Current Year Depreciation	(268,687)
Excess Capital Expenditures Over Depreciation	1,027,840

The statement of activities reports gains/ losses arising from the disposal of existing capital assets. Conversely, in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the cost of the capital assets sold. (28,641)

Some revenues reported in the statement of activities do not provide current financial resources and therefore are not reported as revenues in governmental funds.

Property Taxes	(1,734)

Governmental funds report Town pension contributions as expenditures when made. However, in the Statement of Activities, pension expense is the cost of benefits earned, adjusted for member contributions, the recognition of changes in deferred outflows and inflows or resources related to pensions, and the investment experience.

Pension Contributions	132,457
Pension Expense	(302,871)

TOWN OF CLIFTON, ARIZONA
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the Town of Clifton, Arizona (Town) have been prepared in conformity with accounting principles generally accepted in the United States of America applicable to governmental units adopted by the Governmental Accounting Standards Board (GASB). A summary of the Town's more significant accounting policies follows.

During the year ended June 30, 2015, the Town adopted GASB No. 68 and GASB No.71. GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date-an amendment of GASB Statement No. 68*, both of which provide financial reporting guidance for reporting pension liabilities and expenses.

A. Financial Reporting Entity

The Town is a municipal government that is governed by a separately elected governing body. It is legally separate from and fiscally independent of other state and local governments. In evaluating how to define the Town, for financial reporting purposes, management has identified no potential component units. The decision to include a potential component unit in the reporting entity would have been made by applying criteria set forth in accounting principles generally accepted in the United States of America. Generally, component units are legally separate organizations for which the elected officials of the primary government (i.e., the Town) are financially accountable. The primary government is financially accountable for a potential component unit if it: appoints a voting majority of the potential component unit's governing body; and either is able to impose its will on the potential component unit or there is a possibility of the potential component unit to provide specific financial benefits to, or impose specific financial burdens on the primary government. In addition, a primary government may be financially accountable for a potential component unit even though the potential component unit may have a separately elected governing board, a board appointed by another government, or a jointly appointed board if the potential component unit is fiscally dependent on the primary government (e.g., the primary government must approve the potential component unit's budget, tax rates, etc.). Because no potential component units were identified in defining the Town's reporting entity, none have been included.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. The effect of interfund activity has been removed from these statements. Governmental activities, which are normally supported by taxes and intergovernmental revenues are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

TOWN OF CLIFTON, ARIZONA
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Government-Wide and Fund Financial Statements (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds even though the latter are excluded from the government-wide financial statements. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. However, intergovernmental grants and aid, and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting, except expenditures related to compensated absences and claims and judgments, which are recorded only when payment is due.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

The Town reports the following major governmental funds:

Major Governmental Funds

General Fund

The General Fund is the Town's primary operating fund. It accounts for all financial resources of the Town, except those required to be accounted for in another fund.

Highway Users Revenue Fund (HURF)

The Highway Users Revenue Fund (HURF), a special revenue fund, accounts for the Town's share of motor fuel tax revenues and lottery proceeds.

Arizona Department of Emergency Management Fund (ADEMF)

The Arizona Department of Emergency Management Fund (ADEMF), a special revenue fund, accounts for the Town's expenditures of state emergency funds for repair of damages relating to the 2013 flooding of the San Francisco River.

The Town reports the following major proprietary fund:

Sewer Fund

The Sewer Fund, a proprietary fund, accounts for the activity of the Town's sewer operations.

Additionally, the government reports the following fund type:

Pension Trust Fund

The Pension Trust Fund accounts for the activities of the Volunteer Firefighters' Relief and Pension Fund, which accumulates resources for pension benefit payments to qualified firemen.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the sewer fund are charges for services. Operating expenses for the sewer fund include the cost of sales and services and depreciation. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, for governmental activities it is the Town's policy to use restricted resources first, then unrestricted resources as they are needed. For business-type activities, the use of restricted resources is governed by the applicable bond covenants.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity

1. Deposits and Investments

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits, cash and investments held by the State Treasurer, and highly liquid investments with maturities of three months or less from the date of acquisition.

State statutes authorize the Town to invest in obligations of the U.S. Treasury and U.S. agencies, certificates of deposit in eligible depositories, repurchase agreements, obligations of the State of Arizona or any of its counties or incorporated cities, Towns or duly organized school districts, improvement districts in this state and the State Treasurer's Local Government Investment Pool. Investments are stated at fair value.

2. Receivables

All receivables are shown net of an allowance for uncollectible accounts of \$0 in the General Fund and \$17,837 in the Sewer Fund. The Town includes all accounts outstanding greater than ninety days in its allowance for uncollectible accounts.

3. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements

4. Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the Town as assets with an initial, individual cost of more than \$2,000 and an estimated useful life in excess of one year.

Property, plant and equipment purchased or acquired is carried at actual cost or estimated historical cost. Contributed assets are recorded at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

JUNE 30, 2015

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (Continued)

4. Capital Assets (Continued)

Depreciation on all assets is provided on a straight-line basis over the following estimated useful lives:

Buildings and Improvements	15-80 Years
Land Improvements	15-20 Years
Sewer System	50 Years
Furniture, Equipment and Vehicles	5-15 Years
Infrastructure	15 Years

The Town's policy is to prospectively report infrastructure acquired after adoption of GASB Statement No. 34.

5. Deferred Outflows of Resources

The Town recognizes the consumption of net position that is applicable to a future reporting period as a deferred outflow of resources. Reported amounts are related to the requirements of accounting and financial reporting for pensions under GASB 68.

6. Compensated Absences

The liability for compensated absences reported in the government-wide statements consists of unpaid, accumulated leave balances. The liability has been calculated using the vesting method, in which leave amounts for both employees who currently are eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included.

7. Pension Plans

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Arizona State Retirement System (ASRS) and Public Safety Personnel Retirement System (PSPRS) and additions to/deductions from ASRS/PSPRS's fiduciary net position have been determined on the same basis as they are reported by ASRS/PSPRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (Continued)

8. Deferred Inflows of Resources

The Town recognizes the acquisition of net position that is applicable to a future reporting period as a deferred inflow of resources. Reported amounts are related to the requirements of accounting and financial reporting for pensions under GASB 68.

9. Net Position

In the government-wide financial statements, net position is reported in three categories: net investment in capital assets, restricted net position; and unrestricted net position. Net investment in capital assets is separately reported because the Town reports all Town assets which make up a significant portion of total net position. Restricted net position accounts for the portion of net position restricted by parties outside the Town. Unrestricted net position is the remaining net position not included in the previous two categories.

10. Fund Balance Classifications

Fund balances of the governmental funds are reported separately within classifications based on a hierarchy of the constraints placed on the use of those resources. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, and unrestricted, which includes committed, assigned, and unassigned fund balance classifications.

The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form such as inventories, or are legally or contractually required to be maintained intact. Restricted fund balances are those that have externally imposed restrictions on their usage by creditors (such as through debt covenants), grantors, contributors, or laws and regulations

Assigned fund balances are resources constrained by the Town's intent to be used for specific purposes, but are neither restricted nor committed. The Town Council has authorized the Town Manager to make assignments of resources for a specific purpose.

The unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not reported in the other classifications. Also, deficits in fund balances of the other governmental funds are reported as unassigned.

When an expenditure is incurred that can be paid from either restricted or unrestricted fund balances, it is the Town's policy to use restricted fund balance first. For the disbursement of unrestricted fund balances, it is the Town's policy to use committed amounts first, followed by assigned amounts, and lastly unassigned amounts.

NOTE 2 STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary information

The Town Council follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Arizona Revised Statutes, the Town Manager submits a proposed budget for the fiscal year commencing the following July 1 to the Town Council. The operating budget includes proposed expenditures and the means of financing them for the upcoming year.
2. Public hearings are conducted to obtain taxpayer comment.
3. Expenditures may not legally exceed the expenditure limitation described below of all fund types as a whole. For management purposes, the Town adopts a budget by department for the General Fund and in total by fund for other funds. The Town Manager, subject to Town Council approval, may at any time transfer any unencumbered appropriation balance or portion thereof between a department or activity. The adopted budget cannot be amended in any way without Town Council approval.
4. Formal budgetary integration is employed as a management control device during the year for the General and Special Revenue Funds on essentially the same modified accrual basis of accounting used to record actual revenues and expenditures.

The Town is subject to the State of Arizona's Spending Limitation Law for Towns and Cities. This law does not permit the Town to spend more than budgeted revenues plus the carryover unrestricted cash balance from the prior fiscal year. The limitation is applied to the total of the combined funds. The Town complied with this law during the year.

No supplementary budgetary appropriations were necessary during the year.

B. Excess of Expenditures Over Appropriations

Expenditures exceeded appropriations in the following funds:

	Amount of Overexpenditure
General Fund:	
Chase Creek Building and Maintenance	\$ 7,695
Fire	35,332

Cash was available to cover the overexpenditure.

NOTE 3 DETAILED NOTES ON ALL FUNDS

A. Assets

1. Cash

Cash at June 30, 2015 consists of the following:

Deposits:	
Cash in Bank	\$ 2,096,465
Certificates of Deposit	97,485
Total Deposits	2,193,950
Less: Fiduciary Funds	(97,485)
Total Cash - Statement of Net Position	\$ 2,096,465

Custodial Credit Risk – This is the risk that, in the event of a failure by a counterparty, the Town will not be able to recover its deposits or collateralized securities that are in the possession of an outside party. The Town does not have a formal policy regarding custodial credit risk. However, the bank balance of deposits at June 30, 2015 was \$2,266,936 of which \$500,000 is covered by federal depository insurance and \$1,766,936 is collateralized by collateral held by the Town’s custodial bank in the Town’s name.

2. Receivables

The Greenlee County Treasurer is responsible for collecting property taxes for all governmental entities within the County. The County levies property taxes due to the Town in August. Two equal installments, payable in October and March, become delinquent after the first business days in November and May. During the year, the County also levies various personal property taxes that are due the second Monday of the month following receipt of the tax notice and become delinquent 30 days later. A lien assessed against real and personal property attaches on the first day of January preceding the assessment levy.

Property taxes are recognized as revenues in the fiscal year they are levied in the government-wide financial statements and represent a reconciling item between the government-wide and fund level financial statements. In the fund financial statements property taxes are recognized as revenue in the fiscal year they are levied and collected or if they are collected within 60 days subsequent to fiscal year-end. Property taxes not collected within 60 days subsequent to fiscal year-end or collected in advance of the fiscal year for which they are levied are reported as unavailable revenues.

NOTE 4 OTHER INFORMATION

A. Risk Management

The Town of Clifton, Arizona, is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters. The Town's insurance protection is provided by the Arizona Municipal Risk Retention Pool, of which the Town is a participating member. The limit for basic coverage is for \$3,000,000 per occurrence on a claims made basis. Excess coverage is for an additional \$3,000,000 per occurrence on a follow form, claims made basis. No significant reduction in insurance coverage occurred during the year and no settlements exceeded insurance coverage during any of the past three fiscal years.

The Arizona Municipal Risk Retention Pool is structured such that member premiums are based on an actuarial review that will provide adequate reserves to allow the Pool to meet its expected financial obligations. The Pool has the authority to assess its members additional premiums should reserves and annual premiums be insufficient to meet the Pool's obligations.

The Town is also insured by Arizona Municipal Workers Compensation Fund for potential worker related accidents.

B. Contingent Liabilities

Lawsuits – The Town is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the Town's legal counsel, the Town has some exposure to loss; however, the Town is vigorously defending these claims and any loss or dollar value of the loss is not determinable.

C. Retirement Plans

Firefighters' Relief and Pension Fund

The Town of Clifton, Arizona's Volunteer Firefighters' Relief and Pension Fund is a defined contribution pension plan administered by the Town and a board of trustees for the Town's volunteer firefighters. The board of trustees established the plan and may amend the active plan members' and Town contribution rates.

The plan covers the Town's volunteer firefighters. For the year ended June 30, 2015, there were 20 active plan members and 3 retirees.

A defined contribution pension plan provides benefits in return for services rendered, provides an individual account for each participant, and specifies how contributions to the individual's account are to be determined instead of specifying the amount of benefit the individual is to receive. According to state statute, a volunteer firefighter who has served for 25 years or more or has reached 60 years of age and has served 20 years or more shall be eligible to receive a monthly retirement not to exceed \$400 per month based on the benefits available to members of the Town's volunteer firefighters, as

determined by the board of trustees. Such pension, if paid, may be increased or decreased in amount, or discontinued at the discretion of the board of trustees. If the funds provided in the fund are insufficient to pay fully the pensions authorized, the fund shall be prorated among those entitled thereto. A firefighter who leaves the service without being eligible for retirement benefits is entitled to all previous deductions from his salary plus interest at a rate determined by the board of trustees. As established by state statute, in lieu of another acceptable pension plan, all volunteer firefighters must participate in the pension plan from the date they enter service.

Each volunteer must contribute 5.0% of covered compensation which is equally matched by the Town. In addition, the State of Arizona is required by statute to contribute a portion of the annual tax received on fire insurance premiums. During the fiscal year ended June 30, 2015, the Town and firefighters were not required to make contributions; however, the Town contributed \$1,321 and the firefighters contributed \$1,321.

No pension provision changes occurred during the year that affected the required contributions made by the Town or its volunteer firefighters.

The Firefighters' Relief and Pension Fund held no securities of the Town or other related parties during the fiscal years or as of the close of the fiscal year.

Separate financial statements for the Firefighters' Relief and Pension Fund are not prepared.

Cost-Sharing and Agent Multiple Employer Pension Plans

The Town contributes to the Arizona State Retirement System (ASRS), the Public Safety Personnel Retirement System (PSPRS) for police officers and the PSPRS for firefighters. The plans are component units of the State of Arizona.

At June 30, 2015, the Town reported the following aggregate amounts related to pensions for all plans to which it contributes:

<u>Statement of Net Position and Statement of Activities</u>	<u>Governmental Activities</u>	<u>Business-Type Activities</u>	<u>Total</u>

Cost-Sharing and Agent Multiple Employer Pension Plans (Continued)

The Town reported accrued payroll and employee benefits of \$6,109 for outstanding pension contribution amounts payable to all pension plans for the year ended June 30, 2015. Also, the Town reported \$136,750 of pension expenditures in the governmental funds related to all pension plans to which it contributes.

Arizona State Retirement System

Plan Descriptions – Town employees not covered by the other pension plans described on the following pages participate in the Arizona State Retirement System (ASRS). The ASRS administers a cost-sharing, multiple-employer defined benefit pension plan; a cost-sharing, multiple-employer defined benefit health insurance premium benefit (OPEB) plan; and a cost-sharing, multiple-employer defined benefit long-term disability (OPEB) plan. The Arizona State Retirement System Board governs the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Articles 2 and 2.1. The ASRS issues a publicly available financial report that includes its financial statements and required supplementary information. The report is available on its Web site at www.azasrs.gov.

Benefits Provided – The ASRS provides retirement, health insurance premium supplement, long-term disability, and survivor benefits. State statute establishes benefit terms. Retirement benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

	Retirement Initial Membership Date:	
	Before July 1, 2011	On or After July 1, 2011
Years of service and age required to receive benefit	Sum of years and age equals 80 10 years age 62 5 year age 50* any years age 65	30 years age 55 25 years age 60 10 years age 62 5 years age 50* any years age 65

Arizona State Retirement System (Continued)

Retirement benefits for members who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earnings. Members with a membership date on or after September 13, 2013, are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a member's death. For retired members, the survivor benefit is determined by the retirement benefit option chosen. For all other members, the beneficiary is entitled to the member's account balance that includes the member's contributions and employer's contributions, plus interest earned.

Contributions – In accordance with state statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. For the year ended June 30, 2015, active ASRS members were required by statute to contribute at the actuarially determined rate of 11.60% (11.48% for retirement and 0.12% for long-term disability) of the members' annual covered payroll, and the Town was required by statute to contribute at the actuarially determined rate of 11.60% (10.89% for retirement, 0.59% for the health insurance premium benefit, and 0.12% for long-term disability) of the active members' annual covered payroll.

In addition, the Town was required by statute to contribute at the actuarially determined rate of 9.57% (9.51% for retirement and 0.06% for long-term disability) of annual covered payroll of retired members who worked for the Town in positions that would typically be filled by an employee who contributes to the ASRS. The Town's contributions to the pension plan for the year ended June 30, 2015, were \$77,093. The Town's contributions for the current and two preceding years for OPEB, all of which were equal to the required contributions, were as follows:

<u>Year Ended June 30,</u>	<u>Health Benefit Supplement Fund</u>	<u>Long-Term Disability Fund</u>
2015	\$ 4,177	\$ 850
2014	4,263	1,705
2013	4,140	1,529

During the fiscal year ended June 30, 2015, the Town paid for ASRS pension and OPEB contributions as follows: 84% from the General Fund, 10% from the Highway Users Revenue Fund, and 6% from the Sewer Fund.

Pension Liability – At June 30, 2015, the Town reported a liability of \$1,124,630 for its proportionate share of the ASRS’ net pension liability. The net pension liability was measured as of June 30, 2014. The total pension liability used to calculate the net pension liability was determined using update procedures to roll forward the total pension liability from an actuarial valuation as of June 30, 2013, to the measurement date of June 30, 2014.

The Town’s reported liability at June 30, 2015, decreased by \$70,066 from the Town’s prior year liability of \$1,194,696 because of changes in the ASRS’ net pension liability and the Town’s proportionate share of that liability. The ASRS’ publicly available financial report provides details on the change in the net pension liability.

The Town’s proportion of the net pension liability was based on the Town’s FY 2013 contributions. The Town’s proportion measured as of June 30, 2014, was 0.0076%, which was a increase of 0.0004% from its proportion measured as of June 30, 2013.

Pension Expense and Deferred Outflows/Inflows of Resources – For the year ended June 30, 2015, the Town recognized pension expense for ASRS of \$94,837. At June 30, 2015, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 57,157	\$ -
Net difference between projected and actual earnings on pension plan investments	-	196,663
Changes in proportion and differences between Town contributions and proportionate share of contributions	47,913	-
Town contributions subsequent to the measurement date	77,093	-
Total	\$ 182,163	\$ 196,663

The \$77,093 reported as deferred outflows of resources related to ASRS pensions resulting from Town contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to ASRS pensions will be recognized in pension expense as follows:

Year Ended June 30,	Amount
2016	\$ 3,483

Actuarial Assumptions – The significant actuarial assumptions used to measure the total pension liability are as follows:

Actuarial Valuation Date	June 30, 2013
Actuarial Roll Forward Date	June 30, 2014
Actuarial Cost Method	Entry Age Normal
Investment Rate of Return	8%
Projected Salary Increases	3 - 6.75%
Inflation	3%
Permanent Benefit Increase	Included
Mortality Rates	1994 GAM Scale BB

Actuarial assumptions used in the June 30, 2013 valuation were based on the results of an actuarial study for the 5-year period ended June 30, 2012.

The long-term expected rate of return on ASRS pension plan investments was determined to be 8.79% using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Equity	63%	7.03%
Fixed Income	25%	3.20%
Real Estate	8%	4.75%
Commodities	4%	4.50%

Discount Rate – The discount rate used to measure the ASRS total pension liability was 8%, which is less than the long-term expected rate of return of 8.79%. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board’s funding policy, which establishes the contractually required rate under Arizona statutes. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Town’s Proportionate Share of the ASRS Net Pension Liability to Changes in the Discount Rate – The following table presents the Town’s proportionate share of the net pension liability calculated using the discount rate of 8%, as well as what the Town’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (7%) or 1 percentage point higher (9%) than the current rate.

	1% Decrease (7%)	Current Discount Rate (8%)	1% Increase (9%)
Town's proportionate share of the net pension liability	\$ 1,421,475	\$ 1,124,630	\$ 963,577

Pension Plan Fiduciary Net Position – Detailed information about the pension plan’s fiduciary net position is available in the separately issued ASRS financial report.

Public Safety Personnel Retirement System (PSPRS)

Plan Descriptions - Town police employees and Town firefighters who are regularly assigned hazardous duty participate in the Public Safety Personnel Retirement System (PSPRS). The PSPRS administers an agent multiple-employer defined benefit pension plan and an agent multiple-employer defined benefit health insurance premium benefit (OPEB) plan (agent plans). A seven-member board known as the Board of Trustees and the participating local boards govern the PSPRS according to the provisions of A.R.S. Title 38, Chapter 5, Article 4.

The PSPRS issues a publicly available financial report that includes its financial statements and required supplementary information. The report is available on the PSPRS Web site at www.psprs.com.

Retirement and survivor benefits are subject to automatic cost-of-living adjustments based on excess investment earning. PSPRS also provides temporary disability benefits of 50% of the member's compensation for up to 12 months.

Employees Covered by Benefit Terms – At June 30, 2015, the following employees were covered by the agent pension plans' benefit terms:

	PSPRS Police	PSPRS Firefighters
Inactive employees or beneficiaries currently receiving benefits	1	1
Inactive employees entitled to but not yet receiving benefits	1	-
Active employees	6	-
Total	8	1

Contributions and Annual OPEB Cost – State statutes establish the pension contribution requirements for active PSPRS employees. In accordance with state statutes, annual actuarial valuations determine employer contribution requirements for PSPRS pension and health insurance premium benefits. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. Contribution rates for the year ended June 30, 2015, are indicated below. Rates are a percentage of active members' annual covered payroll.

For the agent plans, the Town's contributions to the pension plan and annual OPEB cost and contributions for the health insurance premium benefit for the year ended June 30, 2015, were:

	PSPRS Police	PSPRS Firefighters
Pension		
Contributions Made	\$ 39,657	\$ 20,000
Health Insurance Premium Benefit		
Annual OPEB Cost	2,191	-
Contributions Made	2,191	-

During fiscal year 2015, the Town paid for PSPRS pension and OPEB contributions 100% from the General Fund.

Pension Liability (Asset) – At June 30, 2015, the Town reported the following net pension liabilities (and asset):

	Net Pension Liability (Asset)
PSPRS Police	\$ (142,286)
PSPRS Firefighters	281,560

The net pension liabilities (and asset) were measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of that date. The total pension liabilities as of June 30, 2014, reflect the following changes of benefit terms and actuarial assumptions.

- In February 2014, the Arizona Supreme Court affirmed a Superior Court ruling that a 2011 law that changed the mechanism for funding permanent benefit increases was unconstitutional. As a result, PSPRS plans changed benefit terms to reflect the prior mechanism for funding permanent benefit increases and revised actuarial assumptions to explicitly value future permanent benefit increases.
- The wage growth actuarial assumption was decreased from 4.5% to 4.0%.

Pension Actuarial Assumptions – The significant actuarial assumptions used to measure the total pension liability are as follows:

Actuarial Valuation Date	June 30, 2014
Actuarial Cost Method	Entry Age Normal
Discount Rate	7.85%
Projected Salary Increases	4.0%-8.0%
Inflation	4.0%
Permanent Benefit Increase	Included
Mortality Rates	RP-2000 mortality table (adjusted by 105% for both males and females)

Actuarial assumptions used in the June 30, 2014, valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2011.

The long-term expected rate of return on PSPRS pension plan investments was determined to be 7.85% using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Short Term Investments	2%	3.25%
Absolute Return	4%	6.75%
Risk Parity	4%	6.04%
Fixed Income	7%	4.75%

Pension Discount Rates – The following discount rates were used to measure the total pension liabilities:

	PSPRS Police	PSPRS Firefighters
Discount Rates	7.85%	5.31%

The projection of cash flows used to determine the PSPRS discount rates assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between the actuarially determined contribution rate and the member rate. Based on those assumptions, the PSPRS Police plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments for these plans to determine the total pension liability.

Agent Plan OPEB Actuarial Assumptions – The health insurance premium benefit contribution requirements for the year ended June 30, 2015, were established by the June 30, 2013, actuarial valuations, and those valuations were based on the following actuarial methods and assumptions.

Actuarial valuations involve estimates of the reported amounts' value and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the plans and the annual required contributions are subject to continual revision as actual results are compared to past expectations and new estimates are made. The required schedule of funding progress for the health insurance premium benefit presented as required supplementary information provides multiyear trend information that shows whether the actuarial value of the plans' assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Projections of benefits are based on (1) the plans as understood by the Town and plans' members and include the types of benefits in force at the valuation date, and (2) the pattern of sharing benefit costs between the Town and plans' members to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. The significant actuarial methods and assumptions used are the same for all PSPRS plans and related benefits (unless noted), and the actuarial methods and assumptions used to establish the fiscal year 2015 contribution requirements, are as follows:

NOTE 1 FACTORS THAT AFFECT THE IDENTIFICATION OF TRENDS

Beginning in Fiscal year 2014, PSPRS established separate funds for pension benefits and health insurance premium benefits. Previously, the plans recorded both pension and health insurance premium contributions in the same Pension Fund. During fiscal year 2014, the plan transferred prior-year health insurance premium benefit contributions that exceeded benefit payments from each plan's pension fund to the new health insurance fund.

NOTE 1 BASIS OF ACCOUNTING

The accompanying Schedules of Revenue, Expenditures and Change in Fund Balance Budget and Actual are prepared on a modified accrual basis of accounting. See Note 2A for the process of how the Town adopts its budget.

NOTE 2 BUDGETARY COMPARISON SCHEDULE RECONCILIATION

For external reporting purposes, the General Fund includes revenues, expenditures, and fund balances of other internally maintained funds. The General Fund, however, is budgeted based on the internally maintained General Fund. Therefore the following reconciliation is necessary to reconcile the General Fund Budgetary Comparison Schedule to the Statement of Revenues, Expenditures and Changes in Fund Balance.

	General Fund				Fund Balance Beginning of Year	Fund Balance End of Year
	Total Revenues	Total Expenditures	Other Financing Sources/Uses	Change in Fund Balance		
Statement of Revenues, Expenditures, and Changes in Fund Balance	\$ 2,753,898	\$ 3,238,730	\$ (16,533)	\$ (501,365)	\$ 2,256,457	\$ 1,755,092
Adjustments	(545,637)	(673,867)	(17,541)	110,689	(160,544)	(49,855)
Schedule of Revenues, Expenditures and Changes in Fund Balance Budget and Actual	<u>\$ 2,208,261</u>	<u>\$ 2,564,863</u>	<u>\$ (34,074)</u>	<u>\$ (390,676)</u>	<u>\$ 2,095,913</u>	<u>\$ 1,705,237</u>
