New Business

Discussion and/or action to approve the light fixture style and location of the poles as presented in the Chase Creek Tomorrow Lighting Project: Town Manager, Rudy Perez referred the members to the 3 recommended street light fixture styles as presented by Wright Engineering.

Each Commissioner offered their personal opinion on the recommended street light fixture styles. Commissioner Vinson stated that light fixture style option 3 is compatible yet distinct and would recommend that option. Commissioner Brinkley was also in favor of recommending option 3. She further justified her recommendation by comparing the three options as follows:

- Option 1 not sufficient lighting;
- Option 2 has no appeal
- Option 3 seems to offer a broader range of lighting.

Commissioner Reyes expressed concern that option 3 does not fit the period of the street. She was also concerned that the Chase Creek Business community had not been given an opportunity to offer their input. Commissioner Reyes also mentioned the possibility of using existing street light poles that were used in the Phelps Dodge Mining housing townsite of Stargo.

There being no further discussion, Commissioner Brinkley made a motion to recommend the street light pole locations and street light fixtures Option 3 to the Clifton Town Council. Second to the motion was made by Commissioner Vinson.

Voting in favor of the motion were Commissioner's Brinkley and Vinson.

Opposing the motion was Commissioner Reyes.

Motion carried.

Adjournment: Motion to adjourn was made by Commissioner Reyes, second to the motion was made by Commissioner Brinkley. Motion carried.

Meeting adjourned at approximately 2:35 p.m.
