
MATERIAL SAFETY DATA SHEET

Description:	Sprink
Composition:	Vegetable oil (rape seed), emulsifier & preservative
Form:	Liquid
First Aid Measures.	<p>Inhalation – non hazardous product. If irritation develops seek medical advice.</p> <p>Ingestion – not applicable.</p> <p>Skin contact – Wash off with soapy water. If skin irritation develops seek medical advice. Eye Contact – Rinse immediately with plenty of water. If irritation persists seek medical advice.</p>
Fire/Explosion Hazard.	<p>Fire hazard is considered to be high when exposed to heat or flame. Do not spray against open fire or hot surfaces. Spray bottle may not be opened or damaged.</p> <p>a) Suitable fire extinguishing media: Foam, Dry Chemical, Carbon Dioxide.</p> <p>b) Protection against fire: Good housekeeping to avoid the accumulation of product. Avoid ignition sources.</p>
Accidental Release Measures:	<p>a) Methods of cleaning / absorption: Absorb spillages with suitable material such as sand or sawdust and sweep up. Alternatively clean surfaces with hot mild detergent solution.</p> <p>b) Personal precautions.</p> <p>See Exposure Controls/ Personal Protection</p> <p>c) Environmental precautions.</p>

Product is believed not to be dangerous to the environment and so no special disposal method is required. However, the method of disposal should be in accordance with current local authority regulations.

Handling & Storage:

- a) Handling
Keep the working area free from accumulated product and ignition sources.
- b) Storage.

Store in original packaging. Keep cool or at ambient temperature and ensure product is stored in accordance with Food Safety Act.

Exposure Controls / Personal Protection

- a) General Precautions.
Handle in accordance with good occupational hygiene and safety practices. Avoid contact with skin and eyes. Avoid unnecessary breathing in of vapours.
- b) Change Work practices to minimise spillage.
 - Improve care and attention to the prevention of spillage's especially around roll and pastry plants, sieves and mixers;
 - Avoid damage to packaging to prevent leaks.
- b) Ventilation.
- b) In accordance with LEV requirements as defined in COSHH 1989 legislation.
- c) Respiratory Protection.
Not required under normal conditions
- c) Eye Protection.
- d) Safety goggles as required.
- c) Skin Protection.
- e)

Standard protective clothing and appropriate skin protection if required.

Stability & Reactivity The material is stable under normal conditions of use.

Conditions to avoid: Temperatures above 50°C
Materials to avoid: None
Hazardous decomposition products: None

a) Inhalation
Not applicable

b) Eye Irritation
Contact with the eyes will cause irritation.

c) Skin Irritation
Prolonged and / or frequent contact may cause irritation and dermatitis.

Ecological Information:	Product is believed not to be dangerous to the environment with respect to mobility, persistency and degradability, bioaccumulative potential, aquatic toxicity and other data relating to ecotoxicity. The preparation is readily biodegradable.
Disposal Considerations	Product is believed not to be dangerous to the environment and so no special disposal method is required. However, the method of disposal should in accordance with current local authority regulations.
Transport Information	<p>Sea: Not applicable</p> <p>Road / Rail: Not applicable</p> <p>Air: Not applicable</p>
Regulatory Information	Not classified as dangerous in Annex 1 of the EEC Directive 67/548.
Other Information	Under the 1994 COSHH Regulations you are reminded that the user is under a legal obligation to carry out a suitable and sufficient assessment as to the risks to health which this material may present under its actual condition of use.
