With the right
tools, anyone
can grow!

About Hortimed GARDEN

We believe that hobby growers should be able to realize their projects with the same standard and quality as professional growers. Our Hortimed Garden products are vegan, made from plant-based materials. Our products are also fully organic, ensuring that everything you grow is completely safe and healthy!

Hortimed Garden products contain all the necessary nutrients for your plants to grow and thrive, so you don't have to worry about anything else.

Organic Farming

Soil Reinvented

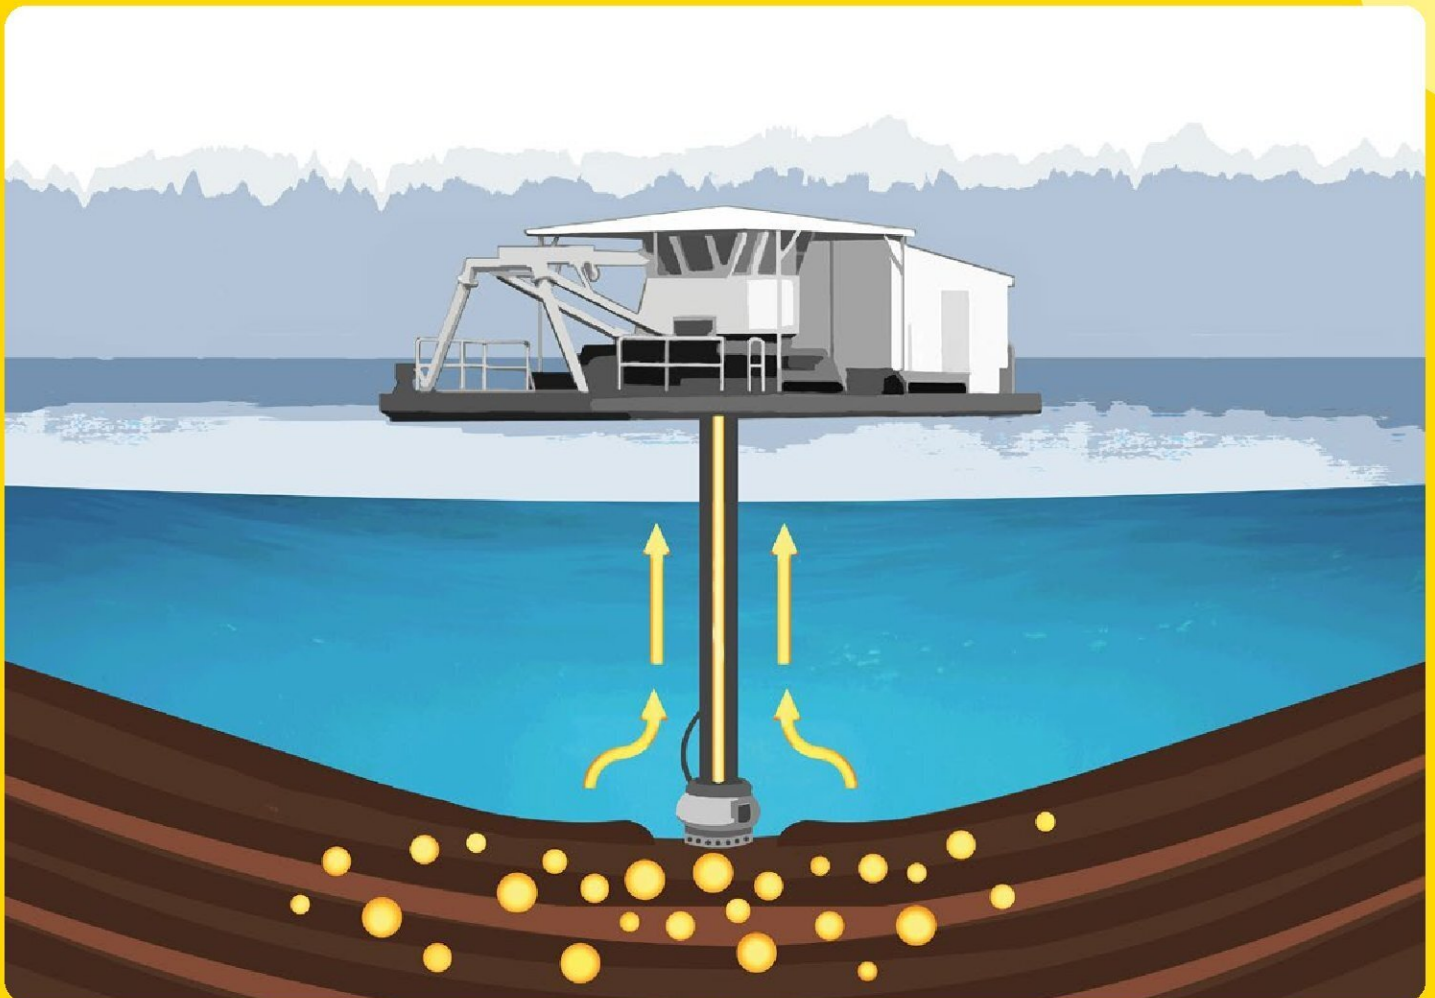

Hortimed Garden products are developed and perfected for all hobby users using the know-how, research and innovative ideas from the Hortimed team. Taking the best materials, ingredients and recipes from our professional horticulture products that have been acknowledged worldwide, Hortimed has created the Hortimed Garden product line.

With the right tools everyone can grow, and what's better than Hortimed Garden?

Key ingredient - sustainably sourced Lake Peloids

Hortimed Garden key ingredient is freshwater lake peloids. Peloids are fine-grained sediments rich in organic matter that have been deposited under water for thousands of years. Hortimed technology allows to extract peloids from Latvian lakes and produce Hortimed Garden products, that are 100% organic, and works great for any gardener!

- + Clean raw materials
- + Sourced from protected areas and national parks
- + Helping the biodiversity and environment

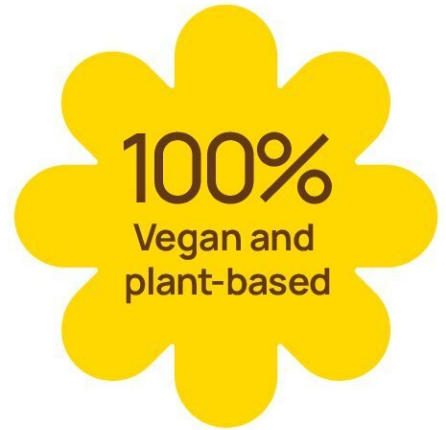

Hortimed GARDEN

Plant Food

Choose the Plant Food product that best suits your needs and experience the joy of knowing that your vegetables, berries, flowers, and herbs are cultivated entirely organically!

With Hortimed Garden products, you can say goodbye to concerns about specific usage days and amounts. Thanks to the special formulas and peloid raw materials used in our products, the water lasts longer and provides plants with nutrients when they truly need them.

Safe for
pets and bees

Suitable for
Organic Farming
