Interested in sponsoring, contact us for more information: hello@replenish509.com

Program Purpose

This project aims to connect professionals working in Haiti with those working outside of Haiti in order to create a space to share developments in the areas of expertise and to bridge the knowledge gaps on how each sector is evolving in various markets.

The program also aims to connect the Haitian Diaspora with their country of origin through networking that will enrich their awareness of what is happening in Haiti and increase their cultural understanding of working in Haiti. This program is open to all nationalities.
