SUSTAINABLE PIECES FOR CONSCIOUS WOMEN

We pay tribute to the majestic and unique natural fibers, which are delicately transformed to create vibrant and timeless summer pieces, empowering a woman deeply conscious of the environment, who wants to rediscover herself in every adventure, in a simple but elegant lifestyle, and always in harmony with nature.

WE CARRY OUT THE DESIGN, PATTERN MAKING AND TAILORING PROCESSES IN OUR WORKSHOP IN THE MUNICIPALITY OF GUATEQUE – BOYACÁ IN COLOMBIA.

From here, we are generating jobs, creating each piece with our hearts, because we believe that it is possible to make a change from the rural areas of our country. We are committed to empowering and training the women of the region, who leave their mark on each garment.

OUR WORK WITH THE ARTISAN COMMUNITIES OF COLOMBIA.

We work with artisans from different regions of the country, men and women who develop the artisan pieces that we incorporate into our garments. With them, we carry out a process of research, testing and co-creation of pieces, respecting the processes of each natural fiber and the transformation techniques inherited for generations.

A photograph of a stone wall and a tiled floor looking out over the ocean. The wall is made of rough, light-colored stone blocks. The floor is made of large, square, light-colored tiles. The ocean is visible in the background under a cloudy sky.

There is a kind of woman who does not need to speak loudly to be remembered.
She moves with the stillness of the sea before dusk, with the warmth of stone touched by light, with the quiet certainty of something deeply rooted.

HELENA was born in that space where silence becomes form.
Where texture, craftsmanship and natural beauty are not adornment, but expression. Clean lines, tactile surfaces and handcrafted details come together as a language of calm strength and timeless femininity.

Inspired by the bond between body, earth and ocean, HELENA is an invitation to inhabit luxury in its purest state: intimate, conscious and enduring.

Cropped top with adjustable straps, featuring a handcrafted bust panel in natural banana fiber, delicately separated by lycra knots. Designed to tie the back.

Body lycra skirt, ankle-length with a mid-thigh side slit.

SK105 AMANDA SKIRT
