OUR STORY

Sofibella is a global technical apparel brand. Launched in 2010, our brand's innovative style resonated with taste-makers from the very beginning. We specialize in manufacturing superior quality, high fashion tennis, golf and lifestyle apparel. Our versatile line combines fashion and technology to deliver performance garments to our valued customers. The key features of our performance fabrics include: UV protection, stay-dry micro fiber material, and memory stretch design.

Sofibella is distributed in luxury pro shops and select specialty stores throughout the world, with a high concentration in North and South America.

Franco Forcella is the founder and President of Sofibella and from it's inception, he has made a commitment to the best practices in global design and manufacturing.

We value social responsibility and for that reason, a percentage of every sale is donated to a non-profit organization that helps children in need.
