

	<b>AEONrv</b>	<b>EKKO</b>	<b>Notes</b>
<b>Chassis and Exterior</b>			
Chassis	Ford Transit SRW 156" with AWD	Ford Transit DRW 156" with AWD	SRW is better for off-road travel
GVWR	9,500 lbs	11,000 lbs	
OCOC	~1000 lbs depending on opt	~1500 lbs depending on opt	
Fuel Capacity	31 gallons	31 gallons	Factory extended fuel tank
Parking Brake	Electric	Manual	Electric allows easier egress to rear.
Front Cab Seats	Heated leather power 10-way	Cloth manual with swivel	Ford doesn't offer swivel with power.
Radio	Ford SYNC 3 with 8" screen	Ford SYNC 3 with 8" screen	
Safety Features	Co-Pilot360 Technology: Pre-Collision Assist with AEB, Lane-Keeping System, Forward Collision Warning; Adaptive Cruise Control	Co-Pilot360 Technology: Pre-Collision Assist with AEB, Lane-Keeping System, BLIS, Forward Collision Warning; Adaptive Cruise Control	The BLIS on the EKKO is from a 3rd party and requires a small protrusion on both sides.
Key FOB Remote Start	Yes	No	FordPass also has remote start.
Ford Perimeter Plus Vehicle Security Alarm	Yes	No	
Headlamps	HID	HID	
Suspension Upgrades	Van Compass 2" lift kit with custom heavy duty front coil spring and Falcon custom tuned rear shocks	No	
Differential Skid Plate	Yes	No	
Tires	BFGoodrich All-Terrain T/A KO2 LT245/75R16	Hankook Dynapro HT 205/75R16	245/75R16 tires are approx 2.36" wider diameter for more clearance.
Add'l Off-Road Package	Optional	Not Available	Front bumper w/ winch; 2nd skid plate
Box Design	Insulated fiberglass reinforced panels	Traditional aluminum framed	
Insulation Value	Average R-15	Roof: R-14.7, Floor: R-6.6, Walls R-7.6	EKKO: <a href="https://familyrvingmag.com/2021/12/01/winnebago-ekko-22a/">https://familyrvingmag.com/2021/12/01/winnebago-ekko-22a/</a>
Windows	Tern Overland dual pane acrylic windows with bug screens and privacy shades	Dometic dual-pane acrylic windows w/screen and cassette shade	
Exterior Length	22'	23'	Specs from mfg website
Exterior Height	10'	10',6"	Specs from mfg website
Exterior Width	7'	7',2.5"	Specs from mfg website
Interior Height	6',8"	6',8"	Specs from mfg website
Interior Width	6',8"	6',9"	Specs from mfg website
Exterior Storage (cu ft)	65 in heated garage, 39.7" high	65.3 total (54.6 in heated garage, ~42" high)	AEON offers optional aluminum storage box 60"Lx16"Hx18"D
Exterior Lighting	32" rear facing 30k lumens LED light bar and LED porch light	LED porch light and LED lighting in awning	
Awning	Optional 9'x7' MoonShade manual awning with adjustable poles	13' Carefree powered included (can be deleted), batwing awning opt	Carefree awnings don't have a care free reputation and have been known to self-deploy.
Luggage Rack	Optional	Optional except with pop-top	
Roof access port	Yes, above dinette	Yes, in back above bed	The one on the EKKO is not at an optimal location for weBoost

	<b>AEONrv</b>	<b>EKKO</b>	<b>Notes</b>
<b>Electrical</b>			
Electrical System	24V	12V	
Inverter	Victron MultiPlus 24/3000/70	Xantrex Freedom XC 2000	
Remote Monitoring	Victron Cerbo GX with 5" touch screen	None	
Solar	700W	455W or 220W (poptop)	
Solar Controller	Victron 100/30 MPPT	Zamp PWM	MPPT is more efficient
Base Lithium	8160 Wh (600 Ah x 13.6V)	4096 Wh (320 Ah x 12.8V)	Specs from battery mfg
Optional Lithium	800Ah or 1000 Ah	8192 Wh (640 Ah x 12.8V)	Specs from battery mfg
Inverter and Battery Location	Under dinette	In cabinet beneath the coach under shower pump	EKKO original design triggered NHTSA recall
Generator	No	Cummins Onan QG 2,800i with base lithium only	Onan generator is 113 lbs but can be deleted
House to Chassis Battery Trickle Charger	Yes	Jump button	
Alternator Charging	Chassis: 1800W peak Optional 24V: Adds 4000W peak, 2500W at low idle	Balmar XT 170A: ~1600-1700W at idle, 2000W peak	AEON uses both chassis alternator via CCP2 port and optional 2nd alternator to charge
<b>Heating and Cooling</b>			
A/C	Pioneer Diamante Ultra 9K BTU mini-split inverter w/ heat pump and Wi-Fi	GE 13,500 BTU Ducted	Pioneer is approx 27-39dB; GE (Haier) A/C is quite loud at 60+dB.
A/C Efficiency	22 SEER 12.5 EER	5.9 EER (from GE website, although I think it's a typo; should be around 7.5-8)	The spec on GE's website doesn't make sense mathematically, as it's designed to work on a 15A circuit.
Heating	Espar Airtronic B4L 12V 13,650 BTU (4kW) with high altitude operation to 3 km (9,843') at -46°C/-50°F	Truma VarioHeat 11,500 BTU (Propane only)	AEON also has an electric 9.5K BTU heat pump that works to -13°F, HSPF4: 10 BTU/w. Truma manual warns against operating gas appliances while in motion.
Fans & Other	Maxxair MaxxFan Deluxe, Skylight with roof access	Maxxair fan	I believe the EKKO also has MaxxFan Deluxe but it's not specified on their website.
<b>Plumbing</b>			
Fresh Water Tank	59 gallons+8 in the hot water heater	50 gallons	AEON water tank is located lower in the heated garage
Gray Water Tank	28 gallon electric and coolant heated with remote dump valve	51 gallons, heated	
LP Tank	None (safe at gas stations and through tunnels)	40 lbs	LP needs high-altitude kits to work well starting about 5000'.
Hot Water Heater	Isotemp SPA marine water heater heated by engine coolant or 750W electric	Truma AquaGo (Propane Only)	Truma manual warns: "Gas appliances must never be operated while the vehicle is in motion."
Water Pump	24V Shurflo Aqua King II 3 GPM	Standard 12V	
Water Filtration	Clearsource two stage 0.2 micron for coach	Galley cold water only basic purification	AEON provides inline filter and hose to pre-filter water when adding from unreliable sources.
Toilet	Cassette or optional Separett composting toilet	Cassette	
Shower Drain	Gravity	Pump	Nothing better than simple gravity.

	<b>AEONrv</b>	<b>EKKO</b>	<b>Notes</b>
<b>Interior</b>			
Bed(s)	Standard queen bed with 6" cool gel foam mattress with AirFlo; plus 44"x68" convertible dinette bed	Twin beds w/WinnSleep System (not standard size) with flex bed kit, optional pop-top and cab air mattress for additional sleeping	The AEON's queen bed turned east/west saves 20" of length, which keeps the weight down on a SRW chassis.
Clothes storage	2 Wardrobes plus cabinets	Wardrobe/drawer storage below beds plus cabinets	The EKKO's wardrobes are too short to hang most adult clothes.
Kitchen	Deep undermount sink with solid surface countertop, pullout pantry, dedicated garbage/recycle bins	Standard above counter stainless sink with cover, laminate countertops, pantry	
Cooking	Portable single burner induction cooktop, 2 burner induction cooktop optional, microwave optional	2-burner LP range cooktop, microwave	LP cooktop is probably only about 6,500 BTU/h per burner. LP combustion results in water inside. Induction is far more efficient.
Refrigerator	4.3 cu ft 24V compressor fridge with separate 1 cu ft freezer, positive door latch	5.3 cu ft 12V compressor single door fridge/freezer	Separate freezer is preferred. Same total space.
Cabinets	Frameless European style cabinetry and hardware with modern laminate facing and hidden latches	Laminate cabinets with 2 color options using magnets to hold upper cabinets open	
Dining	Dinette seats for family of 4 with two 3-point seat belts mounted to aluminum frame, and adjustable table	Dinette seats for 2 with 3-point seat belts plus front seat swiveled and height cushion	EKKO seating seems more awkward. AEON seating realistically is for a family of 4 and not 4 adults due to the narrower van footprint.
Lighting	Dimmable LED	LED	
TV	No	Optional with sound bar	
Insulated from cab	Yes with insulated pass-through lockable door	Curtain only	
<b>Warranty</b>			
Bumper to bumper	2 years/24,000 miles	1 year/15,000 miles	
Box integrity	5 years	3 years/36,000 miles, 10 years on roof skin	Winnebago website only says "36-month/36,000-mile limited warranty on structure" and "10-year limited parts-and-labor warranty on roof skin"
Lithium batteries	10 years	5 years	See battery mfg for details
Ford chassis	3 years/36,000 miles	3 years/36,000 miles	
Ford drivetrain	5 years/60,000 miles	5 years/60,000 miles	
<b>Other</b>			
NHTSA recall history	No	Yes	
Color choices	Yes	Graphics only	Cab and box will match on AEON.
Base price	\$199,500	\$188,017	Actual EKKO pricing set by dealer
Availability	Direct	Authorized dealers	
Option to delete A/C	Yes	No	Saves 80 lbs but also lose heat pump
Option to delete solar	Yes	No
