

AEONrv Delivers New 2023 Rev2 Model: Experience the Ultimate in Off-Road Adventuring

Advanced technology features and design upgrades provide unparalleled performance, comfort and connectivity enhancements for the modern RV adventurer.

Reno, Nevada, June 19, 2024 – [AEONrv](#), a leading innovator in the overlanding and recreational vehicle industry, today announced the mid-year release of the AEONrv 2023 Rev2 model. This upgraded model incorporates exciting technology and design enhancements that deliver greater performance, comfort, efficiency, and connectivity for an unrivaled off-road adventuring experience.

Key Enhancements of the AEONrv 2023 Rev2 Model:

- 1. Advanced Heating System:** the AEONrv 2023 Rev2 features the latest third-generation Eberspächer Espar 2kW Airtronic ducted gas air heater with powerful performance, a compact design, and quiet operation. Specific features include:
 - Automatic altitude adjustment up to 18,000 feet
 - A brushless motor with a lifetime of up to 5,000 operating hours
 - A quieter pump that uses less fuel
 - Sensor-controlled, optimized start-up sequences through environmental parameter measurement
 - Improved heat exchanger for optimized airflow
 - Precise heating control with the EasyStart Pro thermostat controller

2. **Enhanced Solar Capacity:** the rooftop solar panel capacity has been increased from 700W to 800W, allowing for extended off-grid adventures and potentially up to 15% more power.
3. **Improved Connectivity:** [weBoost Drive Reach RV](#), now available as a pre-installed option, delivers maximum cell signal boosting power to keep you connected wherever your journey takes you.
4. **Superior Insulation and Design:** a new single-piece fiberglass pultrusion design connects the AEONrv fiberglass insulated panels, creating a stronger and more visually appealing structure. This design makes the AEONrv the best insulated RV on the market today.
5. **Improved Design Features:** additional design upgrades deliver greater functionality and comfort.
 - New bedroom cabinet design with stronger door pulls
 - Powder-coated exterior aluminum angles and corner caps
 - 2" wider bathroom door opening for easier access
 - Flush-mounted shower drain for better drainage
 - Upgraded 3-hole Lagun table mounts for improved aesthetics

“We are incredibly excited to have delivered three of these new models to customers and to have received such enthusiastic and positive feedback,” said Jim Ritchie, CEO of AEONrv. “We plan to deliver an additional nine units of this model, followed by the 2024 model in Q3, ramping up to a total of 50 units delivered in 2024.”

“*The AEONrv is a dream to drive. My pirate [husband] loves that we get to travel in style. Thanks to Lars, Jim & crew for being so very welcoming and informative.* - DE

To support future growth plans, AEONrv has announced an upcoming equity crowdsourced funding round on [Wefunder](#), with the intent of raising up to \$3M (more information coming soon). This funding will help AEONrv continue to innovate and deliver the best possible RV experience to its customers.

Visit AEONrv June 28-30 at the [Overland Expo PNW](#) to learn more. While the new AEONrv 2023 Rev2 model won't be showcased, the team can answer questions and provide a tour of a similar vehicle.

About AEONrv

At AEONrv, our mission is to build and deliver the most innovative RVs and exceptional customer experience using the latest advancements in modern and green technology. AEONrv is the first true all-season, electric cabin, off-road capable, high-tech and modern recreational vehicle. The company was launched in Oct 2021 by two Silicon Valley executives and avid outdoorsmen with nearly 60 years of combined technology and innovation experience.
