

The Benefits of Working with a Concierge Construction Consultant

Save time, money, and headaches by working with Symbol Advantage, the Northwest's premier concierge construction consultant.

This will be easy, they said!

What could go wrong?

- You don't have access to essential utilities without significant cost
- You find out engineering and other reports the city requires will delay permitting by several weeks
- You just found out the city requires road infrastructure upgrades before approving a building permit... after purchasing the property
- You struggle finding a licensed general contractor with manufactured home certifications
- You don't know if you're getting a fair price for the work or whether all of the required work is included in the bid
- You're not sure who to talk, and you need to talk to someone different every time an issue arises
- You're paying interest and storage fees while you wait for the land development and house foundation to be finished
- You're overbudget and not even half way through the project

Symbol Advantage Concierge Consulting

- **Project assistance**

We provide project coordination to help plan and implement your project

- **Vendor options**

We evaluate and recommend reputable vendors suited for your project needs

- **Budgeting**

We create detailed project budgets to help estimate and manage costs
