

***Moe-Cleaner's machine V.s our competitors:***

***Inhouse engineering & design***

***All parts are inhouse manufacture***

***No Parts are Outsourcing***

- 01. Moe-Cleaner's machines are made from Aircraft Aluminum  
Aircraft Steel Heat treated Gears and Stainless steel.***
- 02. Our competitor's machines are made from Plastic and use Plastic Gears.***
- 03. Moe-Cleaner's machines dry in 40 minutes without air mover.***
- 04. The truck mount dries within 24 hours with air remover.***
- 05. Moe-Cleaner's machines require one operator.***
- 06. Truck mount typically uses two operators.***
- 07. Moe-Cleaner's machines uses 1 gallon of water per 750 to 1,000 square feet.***
- 08. Truck mount uses typically more than 10 gallons per 1,000 square feet.***
- 09. Increased Productivity. Moe-Cleaner 1 partner 1500-2000 sq. ft an hour.  
HWE (Hot Water Extraction) 2 partners 1500 sq. ft per hour***
- 10. Increased Net Income Typical Job 50-55% Ni without Sales Expense.***
