

When it's quiet in the office... Why not phone the office?

Whatever your message. Wherever you are. Keep in touch with BT's Aeronautical Radio

Wherever you are in the world, it's easy to keep in touch with British Telecom's Aeronautical Radio.

Aircraft fitted with simplex or duplex equipment can be swiftly connected to BT's UK and international telephone network via Portishead Radio Station, 24 hours a day. You can even have a message forwarded by telephone, telex or the SITA network.

It's an indispensable in-flight service and you don't have to pay sky-high prices. The one minute minimum means that you can reduce costs even more. Payment is easy too. Calls can be charged to any UK telephone, or you can call Portishead to obtain an account number straightaway.

For more details, call Portishead Radio direct or send the coupon to: BT Aeronautical Radio, Portishead Radio Station, Highbridge, Somerset, TA9 3JY. Telephone 0278 781111 (International +44 278 781111). Telex 465441 BTGKA G.

Please send me more details of BT's Aeronautical Radio.
