

**Amendment to CLA Rules and Regulations dated March 2025 Section XI. Fishing, Subsection A.4**

**Effective March 11, 2026 through December 31, 2026 unless extended by Board action, Section XI. FISHING A.4 is hereby amended to read as follows:**

For each lot, the household residing there, together with any guests they host, may catch and keep a combined total of up to 12 panfish per day. This daily limit applies collectively to the household and its guests, not per individual. Panfish for the purposes of this rule include Crappie, Perch, Bluegill, and Sunfish. This is a household-plus-guest limit, not a per-person or per-species limit. In addition, it is requested that any Carp, Bullhead, or Catfish caught be removed without limit.
