

About ITS Education Asia (ITS)

- * ITS is registered by the Hong Kong Education Bureau [since 2005].
- * ITS was the first non-mainstream school in Asia accredited as a full Edexcel Academic Centre (No: 92885), recognized in 2010. This means ITS can prepare, enter and invigilate candidates in exactly the same way as at a mainstream/traditional school. Despite being non-selective, our results are significantly better than the UK average.
- * ITS is a UCAS centre (No: S45903). UCAS services are offered both to our own students and to others who may be learning at other institutions.
- * ITS is an official Cambridge ATS Centre, administering admissions tests for the University of Cambridge (No: HKI09).
- * ITS is an official BTEC centre (No: 92252).
