Publication Chance on international media

在國際媒體上發表的機會：

**There are a few spots available for members of Premium Portfolio Package...**

高級作品集套餐的會員仍可以考慮發表的機會.....

**Student Hostel Design of suspension structure (wooden architecture)**  
**Sun**

"Sun deployed a simple geometry of a wooden pyramid to serve as a structure with the extended ridge on top.

"He then hanged down the façade system from the high-level structure to reduce the numbers of connection points of the façade touching the ground.

"This will help the wooden structure to dry easily and to minimise the damage by soaking in water.

"Inspired by the Shard in London, the design sees a high-rise with a

**Hideaway House Design by Chan Hei Lam Bernice**

"This striking architectural design features a futuristic, oval structure poised on a cliffside overlooking the ocean.

"The building's hollow walls and curved roof blend harmoniously with the natural landscape, emphasising lightness and openness.

"It utilises a unique framework that appears to float above the ground, providing panoramic views of the sea and surrounding greenery.

"Inside, the layout is minimalistic yet inviting, with wooden flooring and cozy furnishings that encourage relaxation.

"This innovative design not only enhances the aesthetic appeal of its coastal setting but also promotes a seamless connection between indoor and outdoor environments.
