VISION Board

A vision board is such a personal way of revealing your thoughts and there are various interpretations for using the Vision Board. You can use it as a way to plan how you feel like your life would be, either physically or mentally. You can use magazine cutouts or print out images, or draw the ideas out (if you are artistic that way), or you could even just write out your wishes:

A large, empty rectangular box with rounded corners, intended for creating a vision board. The box is white with a thin black border and is positioned below the explanatory text.
