Dear Dr. Roy ,

On behalf of National Breast Cancer Foundation, we are excited to partner with Dr. Roy and International Art Acts. The funds raised from their upcoming art auction will help us provide thousands of early detection services for women in need.

The last year has been a difficult challenge for people and communities around the world. The pandemic has greatly impacted the lives of so many, but in particular those living with chronic conditions like cancer. Diseases like breast cancer did not stop for the pandemic, and patients needed help and support more than ever.

We are so grateful that Dr. Roy and International Art Acts chose this cause because we know the funds they raise will save lives. Breast cancer is a global problem, and we must do everything we can to help women find breast cancers early when the disease is most treatable. This includes educating women and helping recently diagnosed patients navigate through complex cancer care centers.

Pablo Picasso once said, "Art washes away from the soul the dust of ever day life." The everyday life for a breast cancer patient is hard and requires hope. This auction will bring help for today and hope for tomorrow.

Thank you,

Douglas Feil
