

# PureWick™ Flex

## Female External Catheter

An innovative option to managing urinary incontinence.<sup>1</sup>

The PureWick™ System is available for home use.

Designed to help protect skin by drawing away voided urine.

Can reduce trips to the bathroom, which is a known cause of nighttime falls.

Can make better sleep possible.<sup>2</sup>

PureWick™ Urine Collection System

PureWick™ Flex Female External Catheter

## PureWick™ System

1. DeMaagd, G. A. and Timothy C. Davenport. Management of Urinary Incontinence (Table 3). P.T. 2012 Jun; 37(6): 345-361, 361B-361H.  
2. PureWick User Experience Survey, Based on a survey of 145 respondents, 109 (n=47 users, n=50 caregivers, n=10 identified as both a user and caregiver, n=2 who did not identify whether they were a caregiver or a user) agreed that since using PureWick they are able to sleep better at night. The respondents used the DryDoc™ Vacuum Station with the PureWick™ Female External Catheter (previous name of 1st generation PureWick™ Urine Collection System) and re-ordered the PureWick™ Female External Catheter at least once. The survey did not include users of the PureWick™ Flex Female External Catheter due to it not being available in market at the time of the survey.

# PureWick™ Flex Female External Catheter

BD sales representative.

3. 30 female participants in an open label, randomized, crossover study consisting of 5 urine voids utilizing the PureWick™ Flex Female External Catheter. Participants completed a questionnaire on comfort, ease of placement, and preference of bending materials. Participants had an average score of 4.7 out of 5 for ease of placement and preferred the 12 gauge aluminum wire provided.

**Indications:** The PureWick™ Flex Female External Catheter is intended for non-invasive urine output management in adult users with female anatomy, for conditions such as urinary incontinence.

**Contraindications:** The PureWick™ Flex Female External Catheter should not be used on patients with urinary retention.

**Warnings:** The PureWick™ Flex Female External Catheter is designed for single-use only. Trying to wash, sanitize or reuse it may lead to risk of infection or illness. This may damage the product and materials. The product may not work and cause injury or illness. To avoid potential skin injury, never push or rub the product against the skin during placement or removal. Do not block airflow to the product (e.g., blocking the vent hole, bedpan, barrier creams). Do not insert the product into vagina, anus, or other body orifice. Stop use if an allergic reaction occurs. Do not use on users with frequent episodes of stool incontinence without a fecal management system in place. Do not use on users with skin irritation or breakdown at the site. Use with caution on users who had recent surgery of the external female anatomy. Do not use on users with moderate/heavy menstruation who cannot use a tampon. After use, this product may be a potential biohazard. Dispose of in accordance with applicable local, state, and federal laws and regulations.

Please consult package insert for more detailed safety information and instructions for use.
