

PORTER _____

ENGINEERING PTY LTD

CAPABILITY STATEMENT

ABOUT US

Porter Engineering PTY LTD is a trusted specialist in high-quality stainless steel fabrication, serving the food, beverage, and infrastructure industries. With a reputation for precision craftsmanship and reliability, we deliver custom stainless steel solutions tailored to the unique requirements of each project. Our fully equipped mobile trailer enables us to provide on-site services, ensuring efficiency, convenience, and minimal disruption to operations.

Our North Richmond workshop offers comprehensive fabrication capabilities, allowing us to handle projects of all sizes, from minor repairs to full-scale installations. In addition, we provide 24-hour breakdown and priority service, ensuring that our clients experience minimal downtime and receive prompt, expert support whenever needed.

CORE CAPABILITIES

- Custom stainless steel fabrication for the food and beverage industry
- Stainless steel infrastructure solutions for water treatment and related sectors
- On-site fabrication and installation with a fully equipped mobile service
- Repairs, maintenance, and emergency breakdown support
- Precision welding and metalwork
- Bespoke component manufacturing and system modifications

WHY CHOOSE PORTER ENGINEERING?

- **Industry Expertise:** Extensive experience in stainless steel fabrication for food, beverage, and water infrastructure applications.
- **Mobile & Workshop Capabilities:** Fully equipped mobile trailer for on-site work and a well-established workshop for larger-scale projects.
- **24/7 Emergency Service:** Rapid response to breakdowns and urgent requirements, minimising operational downtime.
- **Quality & Precision:** Commitment to delivering high-quality workmanship with attention to detail.
- **Customer-Centric Approach:** Reliable, flexible, and tailored solutions to meet client needs.
