

KEEP WASHINGTON STATE FREE TO ALL

Initiative 1441

No Mandatory Vaccinations, No Vaccine Passports, No Mask-Wearing Mandates, and No Lockdowns of Any Nature Upon Residents

Together, We Win

Since 1912, Washington State citizens have the right to use the initiative and referendum process to make and remake their laws directly, which provide checks and balances over the decisions of their Legislature.

Your Voter Signature Matters!

If we join together, we can get Initiative 1441 to the next meeting of state legislators to adopt as a law in January 2022. If our legislators don't adopt I-1441 into law, then we will start an Initiative to the people once it reopens for submission on January 3rd. We then have until July 8th to submit 400,000 signatures to put it on the November 8th, 2022 general election.

Serving the Community

Initiative 1441 is a community effort on behalf of concerned citizens across Washington State. Many volunteers have been part of our community for years, working tirelessly to make it a better place in many sectors. This is our home and we want to ensure that it stays free to all Washingtonians regardless of medical status.

United By A Common Goal

Our goal is to ensure that all residents of beautiful Washington State are free to live without medical discrimination. Everyone has a personal choice over their medical autonomy without reprisal.
