RESPONSE BY NEIL FABER  
TO MOTION OF SOUTH FORK WIND LLC  
TO STRIKE TESTIMONY OF SIMON V. KINSELLA

I'm sending this brief statement as President of the Dune Alpin Farm co-op on behalf of our community.

I along with many have admired Mr. Kinsella's attention to detail, along with his knowledge, his research, and his amazing work effort.

In all due respect, to lose his voice would be a strong advantage to SFW, who by their motion to strike his testimony shows their frustration to his persistence for specifics and the complete facts. Mr. Kinsella's focus on detail is extraordinary and refreshing and therefore rightly expects due diligence in return.

Therefore, silencing his thinking, testimony, research, exhibits, would be tantamount to tarnishing the objectivity of this proceedings. Resulting in harm to the public, our community as well as its surrounding neighbors, which is certainly antithetical to this commission's objective.

Therefore as to common sense I cannot even conceive that this would even be a viable consideration. I therefore respectfully request, that the Motion by South Fork Wind LLC to Strike the Testimony of Simon Kinsella be DENIED.

Thank you for your attention.
