RE: East Hampton Airport Site,
NYSDEC site No 152250.

Dear Ms. Davis:

FPM Group, on behalf of the Town of East Hampton, has submitted the report entitled "RI Phase II Onsite Data Transmittal and Proposed Phase III Scope of Work, May 9, 2024, East Hampton Airport." This report includes recommendations for additional the Phase III fieldwork that includes the offsite areas. This report has been reviewed by the New York State Department of Environmental Conservation (NYSDEC), the New York State Department of Health (NYSDOH) and the Suffolk County Department of Health Services (SCDHS).

The scope of work proposed is acceptable with the following agreed changes:

1. The two added VPBs near the north crash site proposed by the SCDHS can be moved downgradient onto Daniels Hole Road to prevent the need to clear and brush.
2. If offsite groundwater sampling identifies impacts at the offsite location(s) that require further testing downgradient, FPM will propose to step out as part of the next phase,

The proposed Phase III scope of work, submitted as part of the "Phase II Onsite Data Transmittal and Proposed Phase III Scope of Work, May 9, 2024" is hereby approved with the above two additions. Should you have any questions, please contact me direct at (518)402-9702 or steven.scharf@dec.ny.gov.

Sincerely,

Steven M. Scharf

(Signed Electronically)

Steven M. Scharf, P.E.
