

Quality materials, precision manufacturing and well proven design combine to make a Laparoscopic Trocar System that is safe, simple and intuitive to use.

- Comfortable, ergonomic housing
- Dissecting tip separates tissue layers to provide safe and controlled insertion
- Ribbed cannula
- Low friction, floating valve

STERILE | EO

Class IIa

| Product Name                                     | Cannula Diameter | Cannula Length | Quantity per box | Product Code |
|--------------------------------------------------|------------------|----------------|------------------|--------------|
| Disposable Laparoscopic Optical Trocar           | 5mm              | 100mm          | 12               | B070505100   |
|                                                  | 10mm             | 100mm          | 10               | B070610100   |
|                                                  | 12mm             | 100mm          | 10               | B070712100   |
|                                                  | 15mm             | 100mm          | 10               | B070815100   |
| Disposable Laparoscopic Dilating Tip Trocar      | 5mm              | 100mm          | 12               | B070905100   |
|                                                  | 10mm             | 100mm          | 10               | B071010100   |
|                                                  | 12mm             | 100mm          | 10               | B071112100   |
| Disposable Laparoscopic Trocar Universal Cannula | 5mm              | 100mm          | 12               | B074105100   |
|                                                  | 10mm             | 100mm          | 10               | B074210100   |
|                                                  | 12mm             | 100mm          | 10               | B074312100   |
