

*My name is Jeniena B. Bondame. I am still studying as an Early Childhood Educator in Bow Valley College. I was about to take the nursing field and later found that education was a better direction for me to take. I enjoy working with children of all ages.*

*I was born and raised in the Philippines and moved to Canada in March 2017. I finished my High School in St. Marys High School, Calgary and had a great year from this school. I have been a basketball player since I was in Grade 7. I admit that I'm very competitive in sports. Outside school I love working out in the gym about 5-6 days a week and have plans to compete in a fitness competition soon. My mother's name is Nora Bondame. She graduated from Divine Word College, Philippines with the Degree of Bachelor of Elementary Education. I have another two siblings and I'm the youngest.*

*When it was my first day working as an Early Childhood Educator was very hard and now I learned to deal with children and I'm loving it. I will do my best to help children and families.*
