WHAT'S HAPPENING

We hope that all of you have remained healthy and happy throughout 2020. We are excited to see that things are slowly getting back to normal. We encourage you to come out to see the many new things we have to offer this year! We are excited to be open on time in March.

We still have our COVID cleaning standards in place, as well as 17 hand sanitizing stations spread throughout the facility. We remain diligent to maintain the health standards to protect our guests!

Opening day is Saturday March 20th! We will have our Living History Fiber Arts Exhibit going, and the Kids Transportation Room open. Come out and see these in action! Opening day, we have a couple of demonstrations happening as well.

Starting at the end of March, we will have many Workshops to choose from, so keep an eye out on our website or Facebook page for these exciting new classes!

KIDS CORNER

“To collect and preserve historical items, authentic to the American experience, for the whole family to enjoy and understand within a scenic and inspirational setting.” Our Mission Statement

An interactive children's size exhibit featuring Transportation in the late 1800's. One of the items is a child sized Covered Wagon that allows the kids to decide what items they would take if they were making the journey themselves! There is a wooden horse to be rode on those dusty trails in their imagination! A train table depicting a steam locomotive, that is next to an early 1900's bicycle! So much to see and do for kids this year! Come out and see this new exhibit!
