

UNDER THE SHADOW OF HIS WING

You know you really ought
To change your mode of thought
That's when you'll start to grow
You'll feel that inner glow
Don't be trapped by problems leaving only fear
Pray and you'll be open for many new ideas
Prayer makes you able to shrink all of your woes
Give them to God and unburden the load
Listen to the meaning behind what's heard
For the true understanding beneath the words
Walk away from a fight, turn your face
You'll be saving your own dignity and grace
Concentrate on the positives and you'll be left with peace
Dwell in self pity and the negatives are released
Filled with complacency, you'll worry and project
It never fills the vacancy and leaves you most upset
Let your stumbling blocks become stepping stones
When change comes it will start with you alone
So when your spirits in turmoil and all your thoughts race
Drop that part of you and put a smile upon your face
Trouble will get in your way only if you let it
Self inflicted, self created you can take the credit
Remember nothing gets accomplished if you sit and brood
Fill yourself with God's Spirit and have a new attitude
God loves you so don't fill yourself with dread
Forget what lies behind you, reach out to what's ahead
Let God do His work and handle everything
Put all of your worries under the shadow of His wing
