

**AWS D1.1, D1.2, D1.5, D1.6,
ASME Section IX, ABS, AISC,
API, and Government Contracts**

Our highly-skilled inspectors and specialized services have earned us a top-ranking reputation in the welding and fabrication industry for welding inspection and problem solving. As the awareness and demand for safety and quality increases, so does the need for our services.

By offering a wide range of innovative, cost-saving solutions, we are here to help bridge the gap from the beginning stages of production to the successful completion of projects.

We can help you meet your welding inspection, quality control, quality assurance, and procedure development requirements.

Who We Are

About Us

Industrial Inspection & Services (II&S) is a group of highly-skilled AWS Certified Welding Inspectors, educators, consultants, and ASNT NDT (Non-Destructive Testing) professionals. Our mission is to assist metal fabricators develop their businesses through improved quality management and efficient, cost-effective fabrication methods.

Let us assist your company with compliance to national standards and codes, weld testing, welding inspection, quality assurance services, quality control management, welder training, quality system compliance, welding management, and PQR/WPS procedure development.

Welding Inspection, Quality Systems,
and Procedure Development*

How can we be of service to your company?

Here is how we can help...

Our business helps metal fabrication shops and shipyards improve and expand their businesses by offering one-on-one assistance with continual quality improvement at all levels of the company. We enable and support business growth by helping obtain additional certifications and qualifications, allowing shops to take on more and larger projects.

Our goal is to assist in closing the gap between regulators, engineers, fabrication management, welders on the shop floor, and installers in the field. We have a commitment to continual improvement, evaluation, and quality to meet the needs of our customers.

"We have recommended Industrial Inspection & Services to some of our most demanding customers for professional CWI work."

- J.M. Dwight, Welding Engineer

1309 California Way Longview, WA 98632
www.industrialinspect.com

"II&S has been instrumental in the development of our AISC Structural & Bridge, ISO, and API quality control systems."

- Bob Schuening, GM/QA Manager

Ultrasonic Inspection

Our Products and Services

- ASNT NDT (Non-Destructive Testing) VT/PT/MT/UT ASNT SNT-TC-1A and ANSI/ASNT CP-189.
- Quality assurance services
- Welding planning and welding management
- Welder training, testing & certifications
- Planning, management, and compliance of Procedure Qualification Records (PQR)
- Writing and reviewing Welding Procedure Specifications (WPS)
- Destructive tests and analysis
- Failure analysis
- Evaluation and solutions for reject rates
- Installation Assistance - welding, welding and bolting inspection
- Quality Management Systems - manuals, procedures, forms, gap analysis, compliance, and certification assistance
- Professional quality reports and documents
- We also network with a team of professionals, including welding engineers, for advanced techniques
