

MarcBI: The Comprehensive Solution for Reports and Dashboards for SAP Business One

Empower your business with dynamic reports and customized dashboards.

With MarcBI, companies can generate transactional, dynamic reports and dashboards quickly and easily. The platform offers an analytical data model with all the necessary metrics and dimensions to create or modify reports in a matter of minutes, saving between 60% and 90% of the usual time, without affecting the performance of SAP Business One.

Benefits

Quick and Easy:

Create dynamic reports that integrate seamlessly with PowerBI, Excel, and other tools.

Scalable and Efficient:

Supports any SAP Business One or SQL Server version, including Hana, without compromising performance.

Data-Driven Decisions:

Track key performance indicators for sales, finance, and inventory to improve your business.

Streamlined Efficiency:

Create and modify reports in minutes, not days.

Unlimited and Customizable Access:

Any user can access and modify reports without impacting system performance.

Overnight Automation:

Your calculations are ready when you arrive in the morning

Consolidate your data and optimize your processes with MarcBI. Our platform allows you to unify information from your key areas (Finance, Sales, Purchasing, and Inventory) in one place, generating custom reports to help you make faster and more efficient decisions.
