If you're anything like myself and most Americans, you're sick and tired of the propagandized and weaponized political narratives and the constant barrage of lies and false-flags coming out of the lying Mainstream Media, Washington DC, Wall Street, the Federal Reserve and their latest scheme-FED NOW, banking failures, Big Tech with their AI and Chat GTP threats, Big Pharma, Big-Agriculture, and our indoctrinated educational system.

To add insult to injury, the main-stream media perpetuates all of this chaos.

Let me break some of the more relevant topics we're all being faced with and outright lied to about...

From the WEF's (World Economic Forum) 'ESG' (Environmental Social Governance), to the DEI Agenda (Diversity-Equity-Inclusion), MMT (Modern Monetary Theory), the 'Big Lies' of 'Big Pharma' behind Covid finally being revealed, what the Federal Reserve's FDIC (Federal Deposit Insurance Corporation) is doing in conjunction of their roll-out of FED NOW, how the BRICSS (Brazil-Russia-India-China-South Africa-Saudi Arabia) new gold-backed currency is being utilized to take-down the Dollar and what that will do to America, the Fed and Congress' unlimited printing of new 'funny-money' (more 'Quantitative Easing'), more deficit spending, the bifurcation occurring in Congress with this whole 'speaker-of-the-House BS', the left's outright obfuscation of the 14th Amendment being used against a former President, more increased taxes, rising interest rates by the Fed, the real costs of Joe Biden and his 'Inflation Protection Act', billions more going to Ukraine and now Israel which is serving to perpetrate World War III, the absolute crisis of 'Open Borders', the scam of 'going green', the lies of January 6th, Google's implementation of GNI (Google News Initiative), major corporations going broke by going woke, black thugs looting stores, BLM, Antifa, liberal professors at our colleges indoctrinating our youth, anti-Semitism, welfare entitlements and the state of our welfare system, our failing military; (and don't get me started on how we withdrew from Afghanistan), the continued destruction of our Constitution by the left, the complete and total weaponization of our courts and Justice Department, the lack of election integrity, people being arrested for speaking out at school board meeting, and of course censorship running amuck... Whew!

These are major problems that most Americans don't know the REAL TRUTH about... And what they do know about, their attention span forgets these things after just a few weeks...

These are the things that affect our money and our ability to invest in ourselves and protect our families.

ALL OF THIS is caused by the 'Politics of Money'. AND ALL OF THIS IS BEING DRIVEN BY THE CENTRAL BANKS!!!

IT IS INDEED 'ALL ABOUT THE DAMN MONEY'!!!

Are you truly aware of these things and how they affect you and your family?

NOW LET'S BE VERY HONEST HERE... Are you truly prepared to deal with the fallout of all of this?

Let's face it... We have all been lied to and indoctrinated in many ways and forms since birth. These progressive 'post-modernistic' ideologies are designed to stifle capitalism, impede our ability to make an income, destroy our Constitution, steal our wealth, and to control us while taking what is left of our freedoms and liberties.

WITH THE LEFT'S POLITICAL IMPLEMENTATION OF 'LAW-FARE', TODAY WE ARE LIVING IN A POLICE STATE.

SADLY, THE CENTRAL BANKS AND THEIR 'NEW WORLD ORDER' IS WINNING.

AND IT WOULD SEEM THAT NO ONE WANTS TO STOP ANY OF IT...

The differences in all of this happening today verses years past is that all of these things are hitting us all at once. It's hard for most Americans to fathom everything that is playing out in today's world. You need to know that all of this is by design. The culmination of it all is not just scary, it's over-whelming. **The powers-that-be that designed all of this have had 110 years to perfect their game of chess, while forcing you, me, and 'we-the-people' to play checkers.** All in the name of control... "Rules for thee, but not for me" as it were.

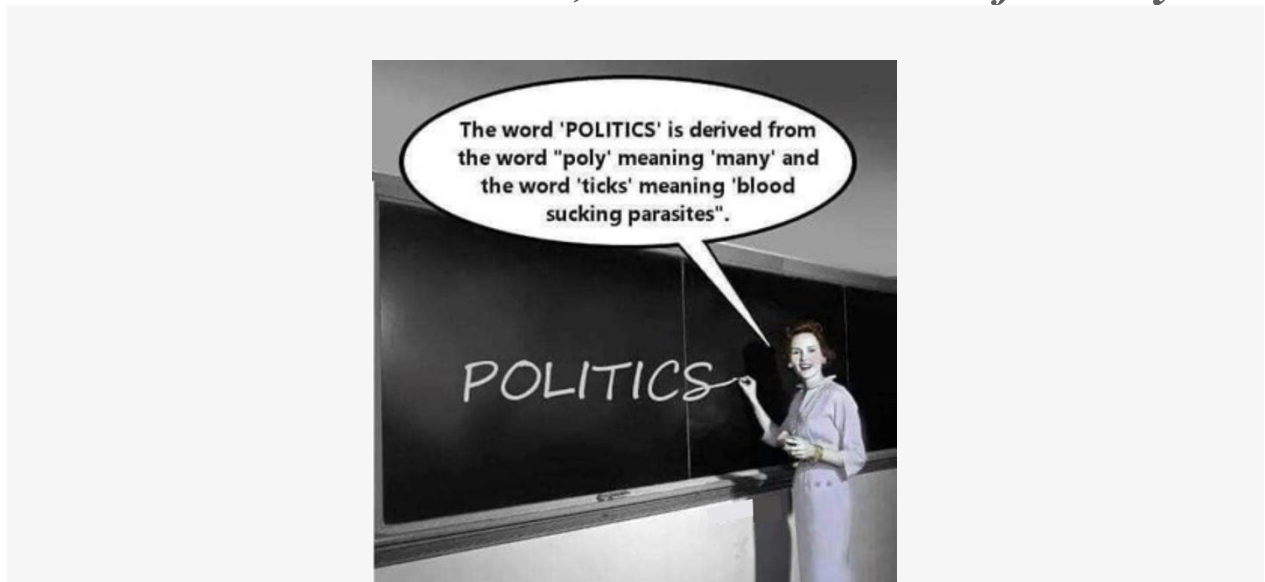

They never taught us financial education in school.... Because they don't want us to know.

THIS IS THE DAMN PROBLEM! And THAT is the answer to solving ALL OF THIS.

Most Americans are asleep at the wheel. Many are in total denial. Most think that these things won't affect them; that the Government will always be there to protect them. That there's no way the banks or the Dollar will ever fail. That the green 'funny money' in our wallets will never lose purchasing power. That elections aren't manipulated and rigged. That everything on CNN, MSNBC, and 'The View', the New York Times and the Washington Post is the truth... Horse Hockey!

For the last few years now, I have asked myself which is worse... The fact that the Federal Reserve's monetary policies of 'fractional reserve banking' is in fact a Ponzi-scheme, or, that the people who colluded to control us with Covid have perpetrated the biggest lie in human history. *Food for serious thought indeed.*

Welcome to DC Politics, and the 'Politics of Money'.

Can you ever remember a time in your life when there were so many questions about so many things that all seem to be influenced by power, greed, and of course, *the money*? Many people are so confused today. And within that confusion, they're doing NOTHING to protect their income, their assets, and their money.

What has happened to this country? It's most certainly not one I recognize anymore.

When people get their 401-K and/or brokerage statements, and they see that its value has dropped yet again for that month, they still do NOTHING. Why is this?

Even after the Silicon Valley Bank ‘break’ in the financial system back in March of last year, many people still have cash sitting in their bank and they think that everything is somehow going to be fine. They have no clue what is getting ready to happen next.

35% of the remaining ‘baby-boomers’ have ZERO dollars saved or invested for their retirement. So many young people have bet-the-farm in the crypto space without ANY knowledge of what the Central Banks and politicians are trying to do to outlaw BTC in all forms. THAT piece of the ‘bubble-equation’ has a fairly simple explanation... The FED wants to force us to use *their* version of crypto, otherwise known as “FED NOW”. *The elimination of cash and the ‘forced compliance’ of CBDC’s (Central Bank Digital Currencies) is the NEXT piece of their criminal slavery of control. DON’T BUY INTO IT!*

Until next time...
