

## **We Treat Our Residents Like Family and Help Them to Live Their Best Lives!**

---

Many seniors require assistance with Activities of Daily Living (ADLs) due to physical limitations or cognitive decline. Living in a family-style home with other seniors offers a special level of comfort and companionship.

## **Who Is Our Typical Resident?**

---

We are a great match for seniors who need assistance with 1 to 4 ADLs, or safety supervision, or may have cognitive decline or early-stage dementia (and are not combative or exit-seeking). We treat our residents like family in our cozy, residential ranch-style home. Our model is similar to "The Golden Girls" sitcom with a caregiver on-site 24/7.

## About Us

CoHomes is registered with the North Carolina Department of Health and Human Services (NCDHHS) as a multi-unit assisted housing with services, which is one of the four types of North Carolina assisted living facilities.

CoHomes was founded after witnessing a loved one living with dementia being mistreated and not receiving the best care. Senior abuse is REAL! No matter their mental state or physical condition, all seniors deserve to be treated with dignity and respect and to be well cared for in a loving home.

You can count on us! We aim to make your loved one feel special every day by providing one-on-one attention, catering to their wants and needs, and exceeding their expectations (as well as yours).
