The Journey

Net Zero Footsteps

PLAN, MAP & STRATEGY

At Net Zero Footsteps, we understand the importance of setting and proudly achieving a net zero target. We specialize in crafting bespoke plans tailored to your business goals, functions, and sustainability aspirations.

From direct to indirect emissions, Scope 1, 2 and 3, we offer practical strategies without the unnecessary fluff. With thorough background research and industry insights, we provide clear options and flexible pathways, ensuring your business efficiently reaches its sustainability objectives.

DECARBONISATION

Our approach to business decarbonisation is about a comprehensive but holistic view of reducing the carbon emissions released from your business operations. Net Zero Footsteps enables micro, small and medium-size businesses to strategically reduce their carbon footprint and achieve sustainability goals.

Our offerings include consultation, implementation, and ongoing support, empowering you, your business, your value chain and those you operate with to transition towards an environmentally responsible future. We work on practices to safeguard tomorrow while maximising efficiency and maintaining competitiveness in a rapidly evolving market of today.

CARBON ACCOUNTING

Accurate carbon accounting and having a complete GHG inventory are paramount steps in your sustainability and decarbonization efforts. We ensure your initial steps are precise and follow up with ongoing knowledge throughout your journey.

Prepare your business emissions with a custom footprint model that can seamlessly match your financial processes. Our analysis includes per-product insights and intensity metrics, enabling informed decision-making at every stage.

ACCREDITATIONS

Our approach to carbon accreditation starts by supporting you in the correct accreditation, ensuring you are in the right place. We support you the entire way, holding your hand or taking the wheel completely. We simplify the path along the way to attaining and upholding carbon credentials.

Our comprehensive service encompasses preparing, submitting and acquiring applications. We offer tailored support to bring you to the required standard and implementation and ongoing assistance for repeat and better performances. With our expertise, you and your business can confidently showcase their commitment to sustainability while driving actual environmental impact.

OFFSETS

Offering expert carbon offset support, we assist businesses in electing the correct offsets to neutralise their carbon footprint. From identifying offset opportunities to implementing and managing the processes, we ensure seamless integration with sustainability goals minimising financial strain. We have a unique approach to align with local and community-level options if you want to go above or simply stay local.

With our guidance, businesses can achieve carbon neutrality while contributing to global environmental preservation.

WASTE MANAGEMENT

An exciting branch of Net Zero Footsteps is waste management as we love diverting from landfill and helping your business be a zero-waste to landfill business. With effective waste management and waste solutions, we help businesses minimise environmental impact and maximize resource efficiency. From comprehensive waste audits to tailored strategies and implementation support, we ensure your new sustainable practices also align with business goals or personal beliefs.

Our expertise enables businesses to reduce waste generation, optimize recycling efforts, and move towards a zero-waste future, driving both environmental and economic benefits. With our help, you will live by the waste hierarchy and lead with waste avoidance

A close-up photograph of a young child, likely a toddler, sitting in a garden. The child is wearing a grey tank top and is holding a handful of dark brown soil in their open palms. Their fingers are also coated with soil. In the foreground, there are several green corn plants growing from the dark earth. The background is filled with various green foliage, creating a lush garden setting. The lighting is natural, suggesting an outdoor daytime scene.

SUSTAINABILITY SUPPORT

We are flexible experts!

Delivering expert sustainability support and consulting on an hourly or project basis. Our goal is driven by an outcome for the earth, so by helping tailor your solutions you're supporting our vision too.

We don't care how we get there, we are looking for meaningful environmental results.

INDUSTRY MOVEMENT

It's worth calling out that staying ahead means knowing the industry's moves. We conduct thorough background research to keep you at the forefront of market trends. Aligning with consumer demand, we identify where the industry is heading and how to position your product or service for success.

Let us help you outcompete the competition and stand out in the market

ACTION CALENDAR

One of our keys to success and business integration is our sustainability action calendar, we provide businesses with a strategic roadmap to achieve environmental goals. Our calendar integrates key sustainability initiatives, milestones, and actionable steps tailored to the objectives all in our unique calendar format. With our guidance overlayed with calendar scheduling, businesses can effectively plan, track progress, and drive impactful change towards a greener future.

We would love to tell you more but it's our trade secret

THE JOURNEY

We're here to support your journey towards a low-carbon or no-carbon business sphere. Whether you're a small startup or a growing enterprise, we provide unparalleled support for carbon management and sustainability goals. From online retailers to tradespeople, athletes to content creators, we tailor solutions to align your business with sustainable practices and decarbonization strategies

This is a journey like no other, embrace it

NET ZERO FOOTSTEPS

We believe in empowering small businesses with the art of making a difference.

Together, we're creating a better world for future generations. In our backyard or beyond we are proudly supporting businesses since 2023.
